#### 1. TEST INSTITUTE

Trisigma B.V. (here after Trisigma) provides compliance and type approval services to the gaming industry and authorities. The Trisigma test labs are located in The Netherlands and have extensive facilities for testing and approval of online and land based gaming systems. Trisigma has been accredited by the Dutch Council of Accreditation for both standards ISO/IEC 17020 (with identification I254) and ISO/IEC 17025 (with identification L531) within the scope of compliance testing and examination of gaming systems. It is Trisigma's policy to carry out all activities according to these high quality standards in order to assure the international recognition of Trisigma certifications, reports and declarations.

This report presents the Trisigma final conclusion of compliance, the scope of examination, the specific identification of the gaming system and an overview of the applicable requirements including the appraisal with regard to the gaming system under examination.

This report has been constructed under the supervision and responsibility of Trisigma's Quality Manager. Every effort has been made to ensure the quality and accuracy of the information contained in this report. If errors or omissions are discovered, please contact us with details. Trisigma B.V. reserves the right to issue revisions of this test report if additional information is presented or discovered.

#### 2. TEST METHODS

Trisigma examines gaming systems using accredited and recognized assessment methods. These methods cover all applicable components and characteristics of the product under examination.

Qualified test engineers carry out a comprehensive compilation of test methods using documentation review, measurements, evaluation of calculations and simulations, statistical tests, functional tests, visual assessment and source code analyses and supervised builds in order to examine the product from a requirements point of view. These test methods comprises the functional and statistical behavior of the gaming system.

#### 3. GENERAL REPORT DATA

Report number	3s.16.141_UK.R0
Jurisdiction	United Kingdom
Requirements	Remote gambling and software technical standards July 2015
Additional regulations or directions	Gambling Commission website: http://licensingadvertisingact.blogspot.co.uk/p/all-frequently-asked- questions.html. 22. Additional information regarding auto-play functionality. 31. Additional information regarding RTS requirement 3C. Testing strategy for compliance with remote gambling and software technical standards, first published August 2009, updated July 2015.
Test period	September, 2015
Project Engineer	D. Kuijer
Revision information	-
References	-

#### 4. APPLICANT DATA

Company name	Virtue Fusion Ltd
Address	10 Jamestown Road NW1 7BY LONDON UNITED KINGDOM
Contact	Mr. C. Rhoades

# 5. CONCLUSION AND RECOMMENDATION

The game complies with the United Kingdom Remote gambling and software technical standards.

NOTE: Considering the current exception of RTS 8, number of auto-plays.

It is the recommendation of Trisigma that the game be approved for use in the jurisdiction of the United Kingdom.

The game has been tested according with the level 3 definition of the Testing Strategy for compliance with remote gambling and software technical standards, first published August 2009, updated July 2015.

The game has been assessed on the English language version.

#### 6. GAME INFORMATION

Type of game	Scratchcard game	
Game rules	Wintry Wonderland is a video scratchcard game. The game displays 3 rows of 3 scratch panels and awards a prize if any 3 symbols are matched.	
Jackpot	Yes	
Game software identification	v15.3.0	
Minimum bet	At operator's discretion	
Maximum bet	At operator's discretion	
Target percentage RTP	93.0%	
Maximum autoplay games	50	

# 7. PLATFORM AND TEST EQUIPMENT INFORMATION

Platform information:

Supplier	Virtue Fusion Ltd
Version	15.3.0

The game was tested with the following equipment:

Device	OS	Browser
Samsung Galaxy S4	Android 5.0.1	Android
Apple Iphone 6 Plus	iOS 8.1.3	Safari

# 8. REQUIREMENTS – TEST RESULTS OVERVIEW

Requirements within this scope are included in this test results overview. Where requirements are applicable to either game or platform these requirements are included in this test result overview, and are marked 'Not Applicable' when compliance is determined only by the platform.

Article	Requirement Text	Verdict
RTS aim 1	To provide customers with easily accessible information about their current balances.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 1A	Where customers hold a credit or debit balance, the pages or screens used to move money into and out of accounts or products must be designed to display the customer's current account or product balance, either in the currency of their account or the currency of the gambling product (e.g. dollars, euros or pounds sterling), whenever that customer is logged in.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
RTS requirement 1A (continued)	For telephone betting this information is to be delivered at the customer's request by the customer service agent or automated response system.	Not Applicable
	Remarks/Findings: This is not a telephone betting game.	
RTS implementation guidance 1A a.	Where funds are moved between products (for example, from a betting product to a gaming product) the balance does not necessarily have to represent all of the balances that a customer may hold with an operator in respect of those products.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 1B	Where customers hold a credit or debit balance, the pages or screens used for gambling must be designed to display the customer's current account or product balance, or where this is not practical to display a link to a page or screen that shows the balance, whenever that customer is logged in.	PASS
	Remarks/Findings: The required information is clearly displayed whenever the customer is logged in.	
RTS requirement 1B (continued)	Balances are to be presented either in the currency of the customer's account or the currency of the gambling product (e.g. dollars, euros or pounds sterling).	PASS
	Remarks/Findings: The required information is presented correctly.	
RTS requirement 1B (continued)	For telephone betting this information is to be delivered at the customer's request by the customer service agent or automated response system.	Not Applicable
	Remarks/Findings: This is not a telephone betting game.	
RTS implementation guidance 1B a.	Where funds are moved between products, the balance does not necessarily have to represent all of the balances that a customer may hold with an operator in respect of other products.	
	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 1B	Gambling pages and screens include virtual game pages, sports betting coupons, and poker and other virtual gaming 'tables'.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS aim 2	To enable the customer to understand the value and content of their transactions.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 2A	The remote gambling system must be designed to make available clear information about the amount of money being gambled by the customer, including any conversions from one form of currency to another, or from currency to credits, chips or other tokens etc, at the point of conversion.	PASS
	Remarks/Findings: The required information is clearly stated on the artwork.	
RTS requirement 2A (continued)	For telephone gambling, this information is to be delivered by the customer service agent or automated response system.	Not Applicable
	Remarks/Findings: This is not a telephone betting game.	
RTS implementation guidance 2A a.	It is preferable for the amount being gambled to be displayed either in the currency of the customer's account or in the currency of the product. The use of credits, chips or other tokens with no face value should be avoided wherever possible.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2A b.	Any conversion from one currency to another should be clearly presented to the customer and any conversion rules are also to be presented. Where currency is converted into tokens, chips or credits, etc, the conversion should be clearly displayed.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2A	Information about the value of the gamble should be displayed including, as appropriate:	
С.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2A	unit stake and total stake, whether currency, credit, tokens, chips, or any other form of payment	
c. i.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2A	entry fees, for example, payment for entry to poker tournaments	
c. ii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2A	the price of lottery tickets and the number of draws entered.	
c. iii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2A d.	For subscription lotteries, sending a confirmation by email or post and/or displaying the stake and the number of draws entered when the customer subscribes is sufficient.	
	Remarks/Findings: This is an explanatory text only.	

RTS requirement 2B	The gambling system must be designed to display sufficient relevant information about the customer's gamble so that the content of the gamble is clear.	PASS
	Remarks/Findings: Instructions are clear and are deemed not to be misleading.	
RTS requirement 2B (continued)	This information must be made available before the customer commits to the gamble including, for example, in the artwork and textual information displayed during gaming, or on an electronic equivalent of a betting slip or lottery ticket.	PASS
	Remarks/Findings: The customer is not forced to play by selecting the game. The game can be viewed and rules can be read before laying a wager on the game.	
RTS requirement 2B (continued)	For telephone betting, this information is to be delivered by the customer service agent or automated response system.	Not Applicable
	Remarks/Findings: This is not a telephone betting game.	
RTS implementation guidance 2B	The following items provide guidelines about the type of information that may be relevant:	
а.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2B	selections – the items the customer has chosen to gamble on;	
a. i.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2B	the bet type	
a. ii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2B	the accepted odds, for example current odds, starting price, first show, etc.	
a. iii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2B	These items, where relevant, are required on applications designed for use on restricted display devices.	
а.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2B	For telephone gambling the content of the customer's bet should be read back to them before the bet is confirmed.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2B c.	Where the customer is able to choose, through the use of a third party user- interface, to override the display of this information, this must not be the default option. That is, the customer must make an active choice not to have the information available or to install a user-interface that does not contain the information. The remote gambling system should continue to make available or send the information to the customer; it should not assume that the information is not required.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2B d.	For subscription lotteries, sending a confirmation by email or post and/or displaying the first draw and the number of draws for which the customer will be entered is sufficient.	
	Remarks/Findings: This is an explanatory text only.	

0	To enable customers to make informed decisions about whether to gamble based on their chances of winning, the way the game, lottery or event works, the prizes or payouts on offer and the current state of multi-state games or events.	
R	Remarks/Findings: This is an explanatory text only.	
	An explanation of the applicable rules must be easily available to the customer before they commit to gamble.	PASS
R	Remarks/Findings: The required information is visible without staking money.	
	The content including artwork and text must be accurate, and sufficient to explain all of the applicable rules and how to participate.	PASS
R	Remarks/Findings: Instructions are clear and are deemed not to be misleading.	
	All reasonable steps must be taken to ensure that the content is understandable.	PASS
(continued)	Remarks/Findings: The information given is correct and is not misleading.	
guidance 3A v	Explanatory content includes information in artwork and text displayed within the virtual event, in 'help' or 'how to play' pages, or other supporting material.	
a. R	Remarks/Findings: This is an explanatory text only.	
guidance 3A fo	Links to the information should be prominently placed, for example on home pages or gaming sections, game selection pages or menus, or within individual games, so that customers can easily locate them.	
R	Remarks/Findings: This is an explanatory text only.	
guidance 3A m	As a minimum, restricted display devices should provide explanatory content via a nenu item or other link.	
c.	Remarks/Findings: This is an explanatory text only.	
guidance 3A b	The following items provide guidelines on the type of explanatory content that may be relevant and should be considered for inclusion:	
d. R	Remarks/Findings: This is an explanatory text only.	
RTS implementation the guidance 3A	he name of the game, lottery or virtual event	
ā :	Remarks/Findings: This is an explanatory text only.	
guidance 3A o	he applicable rules, including clear descriptions of what constitutes a winning butcome	
d.ii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation reguldance 3A	restrictions on play or betting, such as any play duration limits, maximum wins, etc	
J :::	Remarks/Findings: This is an explanatory text only.	
RTS implementation the guidance 3A	he number of decks or frequency of shuffles in virtual card games	
a 1.	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 3A d. v.	whether there are contributions to jackpots (progressives) and the way in which the jackpot operates, for example, whether the jackpot is won by achieving a particular outcome	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3A	instructions on how to interact with the game	
d. vi.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3A d.vii.	rules pertaining to metamorphosis of games, for example, the number and type of tokens that need to be collected in order to qualify for a feature or bonus round and the rules and behaviour of the bonus round	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3A	the rules for entering a single lottery draw or a series of lottery draws and the frequency of the draws.	
d.viii.	Remarks/Findings: This is an explanatory text only.	
RTS requirement 3B	Where relevant, as the game or event progresses, information that may reasonably be expected to enable the customer to understand the current state must be displayed.	PASS
	Remarks/Findings: The required information is displayed on the artwork.	
RTS implementation guidance 3B	The following items provide guidelines on the type of information that may be relevant.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3B a.	Where a game builds up a collection of tokens (symbols etc), the current number collected.	
a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3B	An indication of which rules are currently relevant, such as displaying 'bonus round' or other feature labels.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3B	This requirement does not apply to lotteries.	
C.	Remarks/Findings: This is an explanatory text only.	
RTS requirement 3C	For each virtual event, game (including bingo), or lottery, information that may reasonably be expected to enable the customer to make an informed decision about his or her chances of winning must be easily available before the customer commits to gamble.	PASS
	Information must include: i. a description of the way the game works and the way in which winners are determined and prizes allocated; ii. house edge (or margin); iii. the return to player (RTP) percentage; or iv. the probability (likelihood) of winning events occurring.	
	Remarks/Findings: The required information is visible without staking money.	

RTS implementation guidance 3C	The following items provide further guidance on acceptable types of information about the likelihood of winning:	
а.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C a. i.	for types of peer-to-peer games where the likelihood of winning may depend on skill and/or the actions of other participants, a description of the way the game works and how winners are determined will be sufficient;	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C a. ii.	for bingo, and some types of lottery or other games where it is not possible to determine the likelihood of winning because it depends on the eventual number of participants, a description of the way in which prizes are allocated will be sufficient.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C a. iii.	the average theoretical return to player percentage. Where an event (other than peer-to-peer) involves an element of skill, return to player percentage should be calculated using either the auto-play strategy or a standard/published strategy;	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C	the house edge, margin or over-round, for example for a virtual race;	
a. iv.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C a. v.	the probability of each winning event occurring, or such information as may reasonably be expected to allow the customer to calculate the probability that the event will occur. The nature of some games may mean that the game itself provides sufficient information, for example, the likelihood of rolling a six on a six-sided die would not require further explanation.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C	Information may be included in artwork and text displayed within the virtual game or event, in 'help' or 'how to play' pages, or other supporting material.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C c.	Information should be easily accessible, for example by placing links on home pages for gaming or virtual event sections, game selection pages or menus, or within individual games.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 3D	For each virtual event, game (including bingo), or lottery, content describing the potential prizes and payouts or the means by which these are calculated or determined must be easily available before the customer commits to gamble.	PASS
	Remarks/Findings: The required information is also accessible while not in game play.	
RTS implementation guidance 3D a.	Information should be made available about the amounts that customers may potentially win, for example in the form of pay-tables, or by showing the odds paid for particular outcomes.	
	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 3D b.	For peer-to-peer games where the prize is determined based on the actions of the participants, a description of the way the game works and the rake or commission taken will be sufficient.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3D c.	For lotteries and other types of events where the potential amount or prize paid out may not be known before the customer commits to gamble, describing the way in which the prize amount is determined will be sufficient.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3D	Information may be included in artwork and text displayed within the virtual event, in 'help' or 'how to play' pages, or other supporting material.	
d.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3D e.	Information should be easily accessible, for example by placing links on home pages for gaming sections, game selection pages or menus, or within individual games.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3D f.	Displays of jackpot amounts that change over time ('progressives') should be updated as frequently as practicable, particularly after the amount has been reset following a win.	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 4	To reduce the risk that customers are unfairly disadvantaged by technical factors that may affect speed of response, where response time has a significant impact on the likelihood of winning.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 4A	Where speed of interaction has a significant effect on the customer's chance of winning, operators must assess the level of risk and demonstrate to the Commission that they are taking reasonable steps to reduce the risk to customers.	Not Applicable
	Remarks/Findings: The game does not support an interaction that has a (significant) effect on the customer's chance of winning.	
RTS implementation guidance 4A	Examples of possible approaches include:	
guidance in	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 4A a.	estimating the degree of network latency (delay) a customer is experiencing and displaying regularly updated information to the customer about any disadvantage that they may be operating under (e.g. high, medium, low)	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 4A b.	applying a handicapping system based on estimated performance and/or system latency	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 4A	treating winning responses that arrive within a period of time as simultaneous and implementing a policy on how simultaneous wins are to be dealt with.	
с.	Remarks/Findings: This is an explanatory text only.	

Trisigma B.V. Oudenhof 2a 4191 NW Geldermalsen The Netherlands www.trisigma.nl

	<b>_</b>	
RTS aim 5	To ensure that the gambling system implements the operator's rules, game rules and betting rules as they are described to the customer.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 5A	All reasonable steps should be taken to ensure that gambles are accepted, processed and settled in accordance with the operator's published terms and rules, and the rules of the specific game, event, or bet.	PASS
	Remarks/Findings: The game operates and interacts according to the published rules.	
RTS requirement 5A (continued)	Where unexpected system flaws, faults, or errors that affect the customer occur, steps are to be taken as soon as practicable to remedy the problem and ensure that the customer is treated fairly according to the circumstances.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
RTS implementation guidance 5A	Under normal operation, in the absence of technical faults, the system should act in accordance with the rules.	
a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 5A	Reasonable steps include testing of systems and new products against the published rules.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 5A c.	Customers should be notified when errors that affect them, for example, incorrectly settled bets, have occurred as soon as practicable after the event occurs. Steps should be taken to rectify the error, for example, by manually adjusting the customer's account.	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 6	To minimise the risk that customers are misled about the likelihood of winning due to the behaviour of play-for-fun games.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 6A	Play-for-fun games must implement the same game rules as the corresponding play-for-money games.	Not Applicable
	Remarks/Findings: The game does not support play-for-fun.	
RTS requirement 6A (continued)	Operators must take all reasonable steps to ensure that play-for-fun games accurately represent the likelihood of winning and prize distribution in the play-for-money game.	Not Applicable
	Remarks/Findings: The game does not support play-for-fun.	
RTS requirement 6A (continued)	For the purpose of this requirement playing a game includes participating in a lottery and/or betting on a virtual event.	Not Applicable
	Remarks/Findings: This is not a lottery and/or betting on a virtual event game.	
RTS implementation guidance 6A a.	The play-for-free game should use the same RNG as the corresponding play-for- money games, another RNG that fulfils the requirements set out in RTS requirement 7A, or a publicly available RNG, (such as those available as standard within operating systems) that may reasonably be expected to produce no systematic bias.	
	Remarks/Findings: This is an explanatory text only.	

BTS implementation b.         Where 6a is not reasonably possible, it should be demonstrated that the method of producing outcomes does not introduce a systematic bias, for example: b.         Image: transmethod of producing outcomes does not introduce a systematic bias, for example: b.           RTS implementation guidance 6A b. i.         Remarks/Findings: This is an explanatory text only.         Image: transmethol arge number of games without represent game probabilities accurately, is it should not produce a higher than expected proportion of winning outcomes. RTS implementation guidance 7C d.	Where the event requires a pre-determined layout (for example, hidden prizes on a map), the locations of the winning spots should not change during play, except as provided for in the rules of the game.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7C e.	Where games involve an element of skill, every outcome described in the virtual event rules or artwork should be possible, that is, the customer should have some chance of achieving an advertised outcome regardless of skill.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7C f.	Where a customer contributes to a jackpot pool, that customer should be eligible to win the jackpot whilst they are playing that game, in accordance with the game and jackpot rules.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 7D	The rules, payouts and outcome probabilities of a virtual event or game may not be changed while it is available for gambling, except as provided for in the rules of the game, lottery or virtual event. Such changes must be brought to customer's attention.	PASS
	Remarks/Findings: The game does not support a change of rules, payouts or outcome probabilities.	
RTS implementation guidance 7D a.	Changes to game or event rules, paytables or other parameters that change the way in which a game, lottery, or event works, the winnings paid, or likelihood of winning (except as described in 7Dc.), should be conducted with the game or event taken offline or suspended.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D b.	Altered games, lotteries, and events should display a notice that informs customers that the game or event has been changed, for example, 'rules changed', 'new odds', or 'different payouts'. The notice should be displayed on game selection screens and on the events themselves if it is possible for the customer to go straight to the event without using a selection screen.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D c.	This requirement is not intended to prevent games and virtual events where specified changes occur legitimately, in accordance with the game or event rules, for example:	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D c. i.	virtual events, such as virtual racing products where the odds differ from event to event depending on the virtual runners	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D	virtual games, such as bingo where the odds of winning are dependent on the number of entrants	
c. ii.	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 7D c. iii.	games with progressive jackpots, where the amount that can be won changes over time	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D	games with bonus rounds where different rules apply, so long as these rounds are properly described to the customer	
c. iv.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D c. v.	unspecified changes to rules, paytables or other parameters that change the way in which a game, lottery or event works are not permitted, for example, rules that state 'game rules may be changed at any time' would not be acceptable.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 7E	Except in the case of subscription lotteries, the system must be designed to clearly and accurately display the result of the game or event and the customer's gamble.	PASS
	Remarks/Findings: The required information is clearly and accurately presented to the customer.	
RTS requirement 7E (continued)	The result must be displayed for a length of time that may reasonably be expected to be sufficient for the customer to understand the result of the game or event in the context of their gamble.	PASS
	Remarks/Findings: The game outcome is displayed for a sufficient length of time.	
RTS implementation guidance 7E	The game artwork and text should be sufficient to provide the customer with all of the information required to determine whether they have lost or won, and the value of any winnings.	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 8	To ensure that the customer is still in control of the gambling where auto-play functionality is provided.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 8A	Auto-play must be implemented in such a way that the customer is able to control the amount gambled through selecting the stake and the number of auto-play gambles.	PASS
	Remarks/Findings: The auto-play function is implemented consistently with the requirements.	
RTS requirement 8A	The number of auto-play gambles may not exceed 25 in one batch.	Not
	Remarks/Findings: Current statement from the Gambling Commission with regard to this requirement: "We have considered this position and as a result we will not require compliance with the auto-play requirement as set out in the RTS from the date that licences are issued. Therefore operators will not have to make changes to the auto-play functionality of their games until further notice."	Applicable
RTS implementation guidance 8A a.	The customer should choose the stake and either the number of auto-play gambles or the total amount to be gambled.	
	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 8A b.	During auto-play the customer should be able to stop the auto-play regardless of how many auto-play gambles they initially chose or how many remain.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 8A c.	Auto-play should not override any of the display requirements (for example, the result of each gamble must be displayed for a reasonable length of time before the next gamble commences, as set out in RTS 7E).	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 9	To minimise the risk that auto-play functionality disadvantages a customer or that autoplay or other strategy advice is misleading.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 9A	Strategy advice and auto-play functionality must be fair, not misleading and must not represent a poor choice.	PASS
	Remarks/Findings: Auto-play functionality is implemented consistently with the requirements. The game does not support strategy advice.	
RTS implementation guidance 9A	In implementing this control, the following should be considered, where appropriate:	
а.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 9A	if there is a standard strategy, for example, for well known games like blackjack, the standard strategy should be used	
a. i.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 9A	strategies or auto-play should (theoretically) produce at least the average Return to Player (RTP) for the game over time.	
a. ii.	Remarks/Findings: This is an explanatory text only.

guidance 11A individual table.		Remarks/Findings: This is an explanatory text only.	
	guidance 11A		
		Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 11A	Detection measures may include, detecting and investigating the following, where appropriate:	
d.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 11A	players who frequently share the same tables	
d. i.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 11A	players from same address who share the same table	
d. ii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 11A	suspicious patterns of play (such as chip dumping).	
d. iii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 11A	Customer complaints about cheating should be investigated.	
e.	Remarks/Findings: This is an explanatory text only.	
RTS aim 12	To provide customers with facilities that may assist them in sticking to their personal budgets for gambling with the operator.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 12A	The gambling system must provide easily accessible facilities that make it possible for customers to impose their own financial limits.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
RTS requirement 12A (continued)	Customers must be given the opportunity to set a limit as part of the registration process (or at the point at which the customer makes the first deposit or payment). For lotteries, where the customer's spend is controlled through subscriptions, additional facilities do not have to be provided.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
RTS implementation guidance 12A a.	For telephone gambling (except lotteries), customers should be asked if they would like to set a deposit or spend limit when they register. Customers should be able to request a limit at any point after registration. The limit should be implemented as soon as practicable after the customer's request. The customer should be informed when the limit will come into force.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 12A b.	For other access media (including internet, interactive TV and mobile), customers should be offered the opportunity to select a deposit/spend limit from a list which may contain a 'no limit' option or to enter a limit of their choice as part of the registration or first deposit process. The 'no limit' option should not be the default option.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 12A	Limits could be in the form of:	
C.	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 12A c. i.	deposit limits: where the amount a customer deposits into their account is limited over a particular duration	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 12A c. ii.	spend limits: where the amount a customer spends on gambling (or specific gambling products) is restricted for a given period – this type of limit may be appropriate where the customer does not hold a deposit account with the operator	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 12A c. iii.	loss limits: where the amount lost (i.e. winnings subtracted from the amount spent) is restricted (for instance when a customer makes a £10 bet and wins £8, the loss is £2).	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 12A	The period/duration of the limit should be no less than one day (or 24 hours).	
d.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 12A	In addition:	
e.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 12A	limits may be implemented per customer, per account, or other means	
e. i.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 12A	limits could also be implemented across all products or channels or for individual products or channels	
e. ii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 12A	financial limit facilities should be provided via a link on the home page	
e. iii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 12A	facilities should be available on deposit pages/screens or via a link on these pages/screens.	
e. iv.	Remarks/Findings: This is an explanatory text only.	
RTS requirement 12B	All reasonable steps must be taken to ensure that customer-led limits are only increased at the customer's request, and only after a cooling-off period of 24 hours has elapsed.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
RTS implementation guidance 12B a.	Increases should not be implemented until a cooling-off period of at least 24 hours from the point at which the request to increase the limit was received. Where it is practicable to do so, the customer should be required to confirm that they still wish to increase the limit at the end of the cooling-off period.	
	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 12B	Where possible (for instance, unless systems/technical failures prevent it) limit reductions are to be implemented within 24 hours of the request being received.	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 13	To provide customers with facilities to assist them to keep track of the time they spend gambling.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 13A	Where the gambling system uses full screen client applications that obscure the clock on the customer's device the client application itself must display the time of day or the elapsed time since the application was started, wherever practicable.	PASS
	Remarks/Findings: The client application displays the time of day.	
RTS implementation guidance 13A	Time of day should either be taken from the customer's own device or 'server time' and should be displayed in hours and minutes.	
а.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 13A	Operators will not be expected to detect whether or not customers have hidden their clocks.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 13A	Elapsed time should be displayed in minutes and hours.	
c.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 13A	For restricted display devices, time of day or elapsed time should be displayed where the device supports it.	
d.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 13A	In addition, customers may be offered the ability to set a session or game-play duration reminder.	
е.	Remarks/Findings: This is an explanatory text only.	
RTS aim 14	To ensure that products are designed responsibly and to minimise the likelihood that they exploit or encourage problem gambling behaviour.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 14A	Gambling products must not actively encourage customers to chase their losses, increase their stake or increase the amount they have decided to gamble, or continue to gamble after they have indicated that they wish to stop.	PASS
	Remarks/Findings: Customers are not actively encouraged to play.	
RTS implementation guidance 14A a.	By actively encourage, we mean the inclusion of specific features, functions or information that could reasonably be expected to encourage a greater likelihood of the behaviours described occurring. For example:	
	Remarks/Findings: This is an explanatory text only.

Not Applicable         IPA implementation guidance 1A a.       Account history should include credit and debit information such as deposits, withdrawals, movement of funds between products, payments off credit accounts, entry fee deductions, and bonus information, as appropriate.       Remarks/Findings: This is an explanatory text only.         IPA implementation guidance 1A b.       For betting, gambling history should include bets placed, and the results of bets, including winnings paid. For gaming (including bingo) full or summarised gaming information should be available, for example, £10 taken into game, £100 turned over, £3 taken away from game.	IPA requirement 1A	Customers must have easy access to their account and gambling history.

	guidance 1A	For betting, gambling history should include bets placed, and the results of bets, including winnings paid. For gaming (including bingo) full or summarised gaming information should be available, for example, £10 taken into game, £100 turned	

IPA implementation guidance 1A c.	Where customers are able to move funds between gambling products, account information and statements should clearly display movement of funds into and out of products.	
	Remarks/Findings: This is an explanatory text only.	
IPA implementation guidance 1A d.	For telephone betting, where customers demonstrate that they also have access to websites – by registering online or using other online products – it is acceptable to provide access to statements via these websites, otherwise customers should be sent a regular copy of their statement via email, fax or post unless they elect not to receive this information. Customers should be sent a statement on request, even if they have opted out of receiving regular statements.	
	Remarks/Findings: This is an explanatory text only.	
IPA implementation guidance 1A e.	For gaming, where detailed historic game information may not necessarily be directly available to customers, as a minimum, customers should have easy access to details of the last game played and summarised information for previous activities.	
	Remarks/Findings: This is an explanatory text only.	
IPA implementation guidance 1A f.	For restricted display devices, where customers demonstrate that they also have access to websites – for example, by registering online or using other online products – it is acceptable to provide access to statements via these websites. Otherwise, if the information cannot practicably be provided on the device, customers should be sent a copy of the statement via email, fax or post.	
	Remarks/Findings: This is an explanatory text only.	
IPA aim 2	To inform customers who choose to use third party user-interfaces that they may not receive full information about their gambles.	
	Remarks/Findings: This is an explanatory text only.	
IPA requirement 2A	Customers must be informed that third party interface applications may not display full information about the customer's gambles.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
IPA implementation guidance 2A a.	Information should be included in terms and conditions, rules or other general information about the gambling product that is made available to and/or sent out to customers.	
	Remarks/Findings: This is an explanatory text only.	
IPA aim 3	To make the customer aware that they may not have the latest information available when betting on live events, and that they may be at a disadvantage to operators or other customers who have more up-to-date information.	
	Remarks/Findings: This is an explanatory text only.	
IPA requirement 3A	Information must be made available that explains that 'live' TV or other broadcasts are delayed and that others may have more up-to-date information.	Not Applicable
	Remarks/Findings: This is not an in-running betting game.	
IPA requirement 3A (continued)	Main in-running betting pages must be designed to include this information where practicable.	Not Applicable
	Remarks/Findings: This is not an in-running betting game.	

IPA requirement 3A a.	Brief information should be included on main in-running pages or screens, such as the in-running home page or screen. More detail should be provided in 'help' or 'how to' or other product pages or screens.	Not Applicable	
	Remarks/Findings: This is not an in-running betting game.		
IPA requirement 3A b.	For telephone betting the information should be included in the general betting or product information that is made available to and/or sent out to customers.	Not Applicable	
	Remarks/Findings: This is not an in-running betting game.		
IPA requirement 3A c.	Where a brief notice cannot be practicably included on the main pages or screens, the information should be provided on easily accessible 'help', 'how to' or other product pages or screens.	Not Applicable	
	Remarks/Findings: This is not an in-running betting game.		
IPA aim 4	To make customers in peer-to-peer(s) gambling aware that they may be gambling against a software program (designed to automatically participate in gambling within certain parameters), rather than another (human) participant. This software is sometimes referred to as a robot or bot.		
	Remarks/Findings: This is an explanatory text only.		
IPA requirement 4A	Where operators use programs to participate in gambling on their behalf in peer- to-peer gambling, easily accessible information must be displayed, which clearly informs customers that the operator uses this kind of software.	Not Applicable	
	Remarks/Findings: This is not a peer-to-peer game.		
IPA implementation guidance 4A a.	Peer-to-peer(s) gambling operators that use software to gamble on their behalf (for example, poker robots) should display a notice to customers on the home pages or screens and in the game description, 'help' or 'how to play/bet' pages or screens.		
	Remarks/Findings: This is an explanatory text only.		
IPA implementation guidance 4A b.	As a minimum, restricted display devices should provide a link to further information on gambling pages/screens or in 'help', 'about' or 'how to bet/play' pages or screens.		
	Remarks/Findings: This is an explanatory text only.		
IPA requirement 4B	Where peer-to-peer(s) customers may be gambling against programs deployed by other customers to play on their behalf, information should be made available that describes that this is possible, and if it is against the operator's terms and conditions to use robots, how to report suspected robot use.	Not Applicable	
	Remarks/Findings: This is not a peer-to-peer game.		
IPA implementation guidance 4B a.	The warning and information about how to complain should be included in game descriptions, rules, terms and conditions, 'help', 'how to play' or other general product information pages.		
	Remarks/Findings: This is an explanatory text only.		
IPA implementation guidance 4B b.	The warning should also inform customers that if they use a program to gamble on their behalf, other customers may be able to exploit it.		
	Remarks/Findings: This is an explanatory text only.		

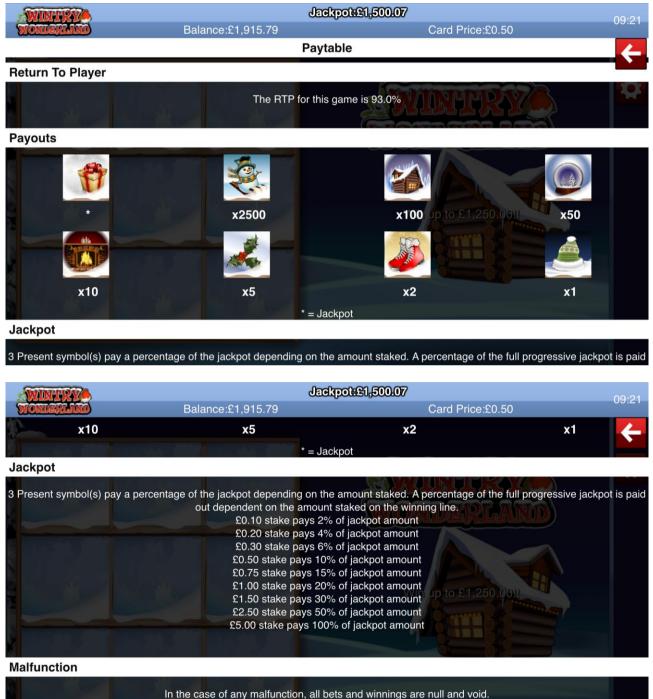

IPA aim 5	To make the customer aware that they may be at a disadvantage due to technical characteristics, such as slower network connections or lower end user device performance, if they are participating in a time-critical form of gambling (where the customer's speed of interaction influences their chance of winning).	
	Remarks/Findings: This is an explanatory text only.	
IPA requirement 5A	For time-critical events, the customer should be informed that they might be at a disadvantage because of technical issues such as slower network speeds, or slower end user device performance.	Not Applicable
	Remarks/Findings: The game does not support time critical events.	
IPA implementation guidance 5A	Information should be included in game descriptions, rules, 'help' or 'how to play' pages.	
a.	Remarks/Findings: This is an explanatory text only.	
IPA aim 6	To inform customers about the operator's policies with regard to service interruptions and how they are likely to be treated if interruption occurs so that they may make an informed decision about whether to gamble and in what way.	
	Remarks/Findings: This is an explanatory text only.	
IPA requirement 6A	Operators must make available information about their policies regarding service interruptions in various different circumstances.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
IPA implementation guidance 6A a.	Operators should make information available to customers about how they will be treated in various common scenarios. However, this does not mean that operators have to detail all possible scenarios or responses to service interruptions.	
	Remarks/Findings: This is an explanatory text only.	
IPA aim 7	To inform customers about the risks posed by collusion/cheating and to deter individuals from attempting to cheat.	
	Remarks/Findings: This is an explanatory text only.	
IPA requirement 7A	Information must be made available about the operator's policies and procedures with regard to cheating, and about how to complain if a customer suspects other participants are cheating.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
IPA implementation guidance 7A	As a minimum deterrent, customers should be informed that accounts will be closed if the customer is found to have cheated.	
а.	Remarks/Findings: This is an explanatory text only.	
IPA implementation guidance 7A b.	Relevant information should be included in terms and conditions or rules.	
	Remarks/Findings: This is an explanatory text only.	
5 Remote gambling and software technical standards – security requirements	All of section 5.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.
