#### 1. TEST INSTITUTE

Trisigma B.V. (here after Trisigma) provides compliance and type approval services to the gaming industry and authorities. The Trisigma test labs are located in The Netherlands and have extensive facilities for testing and approval of online and land based gaming systems. Trisigma has been accredited by the Dutch Council of Accreditation for both standards ISO/IEC 17020 (with identification I254) and ISO/IEC 17025 (with identification L531) within the scope of compliance testing and examination of gaming systems. It is Trisigma's policy to carry out all activities according to these high quality standards in order to assure the international recognition of Trisigma certifications, reports and declarations.

This report presents the Trisigma final conclusion of compliance, the scope of examination, the specific identification of the gaming system and an overview of the applicable requirements including the appraisal with regard to the gaming system under examination.

This report has been constructed under the supervision and responsibility of Trisigma's Quality Manager. Every effort has been made to ensure the quality and accuracy of the information contained in this report. If errors or omissions are discovered, please contact us with details. Trisigma B.V. reserves the right to issue revisions of this test report if additional information is presented or discovered.

#### 2. TEST METHODS

Trisigma examines gaming systems using accredited and recognized assessment methods. These methods cover all applicable components and characteristics of the product under examination.

Qualified test engineers carry out a comprehensive compilation of test methods using documentation review, measurements, evaluation of calculations and simulations, statistical tests, functional tests, visual assessment and source code analyses and supervised builds in order to examine the product from a requirements point of view. These test methods comprises the functional and statistical behavior of the gaming system.

Test report number: 3s.18.810\_UK-GI.R1

Product name: Fruity Burst Jackpot

## 3. GENERAL REPORT DATA

Report number	3s.18.810_UK-GI.R1
Jurisdiction United Kingdom	
Requirements	Remote gambling and software technical standards June 2017
Additional regulations or directions	Testing strategy for compliance with remote gambling and software technical standards, November 2018.
Test period	February 2019
Project Engineer	S. Schoonderbeek
Revision information	This revision R1 replaces and cancels the previous version R0.  R1 updates the version of the document 'Testing strategy for compliance with remote gambling and software technical standards' in chapter 5. Conclusion and recommendation.
References	3s.15.597_UK.R0 Report RNG

## 4. APPLICANT DATA

Company name	Virtue Fusion (Alderney) Ltd
Address	10 Jamestown Road NW1 7BY LONDON UNITED KINGDOM
Contact	K. Prosper

## 5. CONCLUSION AND RECOMMENDATION

The game complies with the United Kingdom Remote gambling and software technical standards.

It is the recommendation of Trisigma that the game be approved for use in the jurisdiction of the United Kingdom.

The game has been tested in accordance with the procedure for testing of the Testing strategy for compliance with remote gambling and software technical standards, November 2018.

The game has been assessed on the English language version.

#### NOTE

Software that meets the requirements of the UK RTOS is considered by the Gibraltar Gambling Commissioner's office to be compliant with the requirements of the Gibraltar RTOS.

#### 6. GAME INFORMATION

Type of game	Slot game	
Client delivery channel	HTML5 browser based for Mobile / Tablet / Desktop (PC)	
Game rules	Fruity Burst Jackpot is a video slot variety with 5 rows of 5 characters. A match of 5 or more of the same character adjacent to one another (not diagonal) wins multiple times the staked amount.	
Jackpot	No	
Game software identification	19.1	
Target percentage RTP	95.5%	
Maximum autoplay games	100	

Test report number: 3s.18.810\_UK-GI.R1

Product name: Fruity Burst Jackpot

## 7. PLATFORM AND TEST EQUIPMENT INFORMATION

#### Platform information:

Supplier	Virtue Fusion Ltd
Version	19.1.0

## The game was tested with the following equipment:

Device	os	Browser
PC HP ProDesk 490 G2 MT Intel i7 (8GB RAM)	Windows 10 Pro (64bit)	Google Chrome (version 61.0.3163.100) Mozilla Firefox (version 56.0.1)
Samsung Galaxy S4	Android (version 5.0.1)	Chrome
Apple iPhone 6 Plus	iOS (version 10.2.1)	Safari
Samsung Galaxy Tab S2	Android (version 6.0.1)	Chrome
Apple iPad Air 2	iOS (version 10.3.3)	Safari

## 8. REQUIREMENTS - TEST RESULTS OVERVIEW

Requirements within this scope are included in this test results overview. Where requirements are applicable to either game or platform these requirements are included in this test result overview, and are marked 'Not Applicable' when compliance is determined only by the platform.

Article	Requirement Text	Verdict
RTS aim 1	To provide customers with easily accessible information about their current balances and facilities that enable them to review previous gambling and account transactions.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 1A	Where customers hold a credit or debit balance, the pages or screens used for gambling and to move money into and out of accounts must display the customer's current account balance, in the currency of their account (eg dollars, euros or pounds sterling), whenever that customer is logged in. Where it is not practical to display current balance from gambling screens then easily accessible links to this information must be provided.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
RTS implementation guidance 1A a.	Where funds are moved between products (for example, from a betting product to a gaming product) the balance does not necessarily have to represent all of the balances that a customer may hold with an operator in respect of those products.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 1A	For telephone betting this information is to be delivered at the customer's request by the customer service agent or automated response system	
b.	Remarks/Findings: This is an explanatory text only.	
RTS requirement 1B	Customers must have easy access to at least three months account and gambling history without having to contact the licensee. A minimum of 12 months of gambling and account history must be made available on request. The ability to request this information should be made clear to customers and be provided as soon as is practicable.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
RTS implementation guidance 1B	The gambling and account history should include:	
ā.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 1B a.i.	credit and debit information such as deposits, withdrawals, movement of funds between products, payments off credit accounts, entry fee deductions, and bonus information, as appropriate	
	Remarks/Findings: This is an explanatory text only.	

Test report number: 3s.18.810\_UK-GI.R1

Product name: Fruity Burst Jackpot

RTS implementation guidance 1B	bets placed, the results of bets, winnings paid	
a.ii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 1B a.iii.	For gaming (including bingo) full or summarised gaming information should be available, for example, £10 taken into game, £100 turned over, £3 taken away from game. Where detailed historic game information may not necessarily be directly available to customers, as a minimum, customers must have easy access to details of the last game played and summarised information for previous activities	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 1B aiv.	where customers are able to move funds between gambling products, account information and statements should clearly display movement of funds into and out of products	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 1B	an option for customers to use their own defined time period or to select from a range of time periods a summary total for the period selected eg win/loss.	
a.v.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 1B b.	For telephone betting and restricted display devices, where customers demonstrate that they also have access to websites – by registering online or using other online products – it is acceptable to provide access to statements via these websites, otherwise customers should be sent a regular copy of their statement via email, fax or post unless they elect not to receive this information. Customers should be sent a statement on request, even if they have opted out of receiving regular statements.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 1C	Customers must be able to access information about their net deposits.	Not
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	Applicable
RTS implementation guidance 1C	Net deposits are defined as the running total of all deposits minus the sum of all withdrawals for the lifetime of the account. This should be displayed at an account level so the figure represents the net position of all payment methods. Where full account lifetime history isn't possible then, as a minimum, the net deposits should be displayed from 1 April 2018, or the account opening date if after 1 April 2018. Information which explains the net deposit figure, including the timeframe it covers, should be provided.	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 2	To enable the customer to understand the value and content of their transactions.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 2A	The remote gambling system must make available clear information about the amount of money being gambled by the customer, including any conversions from one form of currency to another, or from currency to credits, chips or other tokens etc, at the point of conversion.	PASS
	Remarks/Findings: The required information is clearly stated on the artwork.	

guidance 2A b.	customer and any conversion rules are also to be presented. Where currency is converted into tokens, chips or credits, etc, the conversion should be clearly displayed.  Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2A c.	Information about the value of the gamble should be displayed including, as appropriate:	
· .	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2A c. i.	unit stake and total stake, whether currency, credit, tokens, chips, or any other form of payment	
C. 1.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2A	entry fees, for example, payment for entry to poker tournaments	
C. ii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation	the price of lottery tickets and the number of draws entered.	
guidance 2A c. iii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2A	For telephone gambling, this information is to be delivered by the customer service agent or automated response system.	
d.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2A e.	For subscription lotteries, sending a confirmation by email or post and/or displaying the stake and the number of draws entered when the customer subscribes is sufficient.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 2B	The gambling system must be designed to display sufficient relevant information about the customer's gamble so that the content of the gamble is clear.	PASS
	Remarks/Findings: Instructions are clear and are deemed not to be misleading.	
RTS requirement 2B (continued)	This information must be made available before the customer commits to the gamble including, for example, in the artwork and textual information displayed during gaming, or on an electronic equivalent of a betting slip or lottery ticket.	PASS
	Remarks/Findings: The customer is not forced to play by selecting the game. The game can be viewed and rules can be read before laying a wager on the game.	
RTS implementation guidance 2B	The following items provide guidelines about the type of information that may be relevant:	
a.	Remarks/Findings: This is an explanatory text only.	
	and a standard the standard translation of the standard tr	
RTS implementation guidance 2B	selections – the items the customer has chosen to gamble on;	

RTS implementation	the bet type	
guidance 2B a. ii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation	the accepted odds, for example current odds, starting price, first show, etc.	
guidance 2B a. iii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2B	the odds format that will take precedence in settling bets must be set out in the rules.	
a. iv.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2B	These items, where relevant, are also required on applications designed for use on restricted display devices.	
a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2B	For telephone gambling the content of the customer's bet should be read back to them before the bet is confirmed.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2B c.	Where the customer is able to choose, through the use of a third party user-interface, to override the display of this information, this must not be the default option.  That is, the customer must make an active choice not to have the information available or to install a user-interface that does not contain the information.  The remote gambling system should continue to make available or send the information to the customer; it should not assume that the information is not required.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2B d.	For subscription lotteries, sending a confirmation by email or post and/or displaying the first draw and the number of draws for which the customer will be entered is sufficient.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 2C	The gambling system must enable customers to choose whether to accept price fluctuations (in either direction) that occur after their bet is requested.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
RTS implementation guidance 2C	Players should be presented with options to control whether a price change should be accepted or not.	
a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2C b.	These options must be presented on a per bet basis, except in circumstances where a customer has requested a default account setting to disable price change alerts prior to bet acceptance. Where the functionality is offered at an account level the default option should not be set to accept all fluctuations. Where a customer chooses not to accept price changes automatically any bet where the price changes must be reoffered before it is accepted.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 2C	Information sufficient to explain the options to the customers should be provided.	
C.	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 2C d.	An optimum solution would enable consumers to choose to automatically accept price movements within a particular margin range. Account level options offered to consumer could include accepting all bets with higher price, accepting all bets with shorter price or accepting all bets regardless of price movements.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation	This requirement does not intend to capture currency fluctuations	
guidance 2C e.	Remarks/Findings: This is an explanatory text only.	
RTS requirement 2D	Customer who choose to use third party user interfaces must be informed that applications may not display full information about their gambles.	Not Applicable
	Remarks/Findings: The game does not support third party user interfaces.	
RTS implementation guidance 2D	Information should be included in terms and conditions, rules or other general information about the gambling product that is made available to and/or sent out to customers.	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 3	To enable customers to make informed decisions about whether to gamble based on their chances of winning, the way the game, lottery or event works, the prizes or payouts on offer and the current state of multi-state games or events.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 3A	An explanation of the applicable rules must be easily available to the customer before they commit to gamble.	PASS
	Remarks/Findings: The required information is visible without staking money.	
RTS requirement 3A (continued)	The content including artwork and text must be accurate, and sufficient to explain all of the applicable rules and how to participate.	PASS
	Remarks/Findings: Instructions are clear and are deemed not to be misleading.	
RTS requirement 3A	All reasonable steps must be taken to ensure that the content is understandable.	PASS
(continued)	Remarks/Findings: The information given is correct and is not misleading.	
RTS implementation guidance 3A	Explanatory content includes information in artwork and text displayed within the virtual event, in 'help' or 'how to play' pages, or other supporting material.	
a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3A b.	Links to the information should be prominently placed, for example on home pages for gaming sections, game selection pages or menus, or within individual games, so that customers can easily locate them.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3A	As a minimum, restricted display devices should provide explanatory content via a menu item or other link.	
C.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3A	The following items provide guidelines on the type of explanatory content that may be relevant and should be considered for inclusion:	
d.	Remarks/Findings: This is an explanatory text only.	
RTS implementation	the name of the game, lottery or virtual event	
guidance 3A d. i.	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 3A	the applicable rules, including clear descriptions of what constitutes a winning outcome	
d.ii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation	restrictions on play or betting, such as any play duration limits, maximum wins, etc	
guidance 3A d.iii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation	the number of decks or frequency of shuffles in virtual card games	
guidance 3A d. iv.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3A d. v.	whether there are contributions to jackpots (progressives) and the way in which the jackpot operates, for example, whether the jackpot is won by achieving a particular outcome	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation	instructions on how to interact with the game	
guidance 3A d. vi.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3A d.vii.	rules pertaining to metamorphosis of games, for example, the number and type of tokens that need to be collected in order to qualify for a feature or bonus round and the rules and behaviour of the bonus round	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3A	the rules for entering a single lottery draw or a series of lottery draws and the frequency of the draws.	
d.viii.	Remarks/Findings: This is an explanatory text only.	
RTS requirement 3B	Where relevant, as the game or event progresses, information that may reasonably be expected to enable the customer to understand the current state must be displayed.	PASS
	Remarks/Findings: The required information is displayed on the artwork.	
RTS implementation guidance 3B	The following items provide guidelines on the type of information that may be relevant.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3B	Where a game builds up a collection of tokens (symbols etc), the current number collected.	
a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3B	An indication of which rules are currently relevant, such as displaying 'bonus round' or other feature labels.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS implementation	This requirement does not apply to lotteries.	
guidance 3B c.	Remarks/Findings: This is an explanatory text only.	

RTS requirement 3C	For each virtual event, game (including bingo), or lottery, information that may reasonably be expected to enable the customer to make an informed decision about his or her chances of winning must be easily available before the customer commits to gamble.  Information must include: i. a description of the way the game works and the way in which winners are determined and prizes allocated ii. house edge (or margin) iii. the return to player (RTP) percentage or iv. the probability (likelihood) of winning events occurring.	PASS
RTS implementation	Remarks/Findings: The required information is visible without staking money.  The following items provide further guidance on acceptable types of information	
guidance 3C	about the likelihood of winning:	
a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C a. i.	for types of peer-to-peer games where the likelihood of winning may depend on skill and/or the actions of other participants, a description of the way the game works and how winners are determined will be sufficient;	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C a. ii.	for bingo, and some types of lottery or other games where it is not possible to determine the likelihood of winning because it depends on the eventual number of participants, a description of the way in which prizes are allocated will be sufficient.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C a. iii.	the average theoretical return to player percentage. Where an event (other than peer-to-peer) involves an element of skill, return to player percentage should be calculated using either the auto-play strategy or a standard/published strategy;	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C	the house edge, margin or over-round, for example for a virtual race;	
a. iv.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C a. v.	the probability of each winning event occurring, or such information as may reasonably be expected to allow the customer to calculate the probability that the event will occur.  The nature of some games may mean that the game itself provides sufficient information, for example, the likelihood of rolling a six on a six-sided die would not require further explanation.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C a. vi.	The odds displayed in virtual event betting should reflect the probability of each event occurring as closely as possible.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3C b.	Information may be included in artwork and text displayed within the virtual game or event, in 'help' or 'how to play' pages, or other supporting material.	
D.	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 3C c.	Information should be easily accessible, for example by placing links on home pages for gaming or virtual event sections, game selection pages or menus, or within individual games.  Remarks/Findings: This is an explanatory text only.	
RTS requirement 3D	For each virtual event, game (including bingo), or lottery, content describing the potential prizes and payouts or the means by which these are calculated or determined must be easily available before the customer commits to gamble.	PASS
	Remarks/Findings: The required information is also accessible while not in game play.	
RTS implementation guidance 3D a.	Information should be made available about the amounts that customers may potentially win, for example in the form of pay-tables, or by showing the odds paid for particular outcomes.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3D b.	For peer-to-peer games where the prize is determined based on the actions of the participants, a description of the way the game works and the rake or commission taken will be sufficient.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3D c.	For lotteries and other types of events where the potential amount or prize paid out may not be known before the customer commits to gamble, describing the way in which the prize amount is determined will be sufficient.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3D	Information may be included in artwork and text displayed within the virtual event, in 'help' or 'how to play' pages, or other supporting material.	
d.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3D e.	Information should be easily accessible, for example by placing links on home pages for gaming sections, game selection pages or menus, or within individual games.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 3D f.	Displays of jackpot amounts that change over time ('progressives') should be updated as frequently as practicable, particularly after the amount has been reset following a win.	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 4	To reduce the risk that customers are unfairly disadvantaged by technical factors that may affect speed of response, and to ensure customers are made aware of the risk	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 4A	Where speed of interaction has a significant effect on the customer's chance of winning, operators must assess the level of risk and demonstrate to the Commission that they are taking reasonable steps to reduce the risk to customers.	Not Applicable
	Remarks/Findings: The game does not support an interaction that has a (significant) effect on the customer's chance of winning.	
RTS implementation	Examples of possible approaches include:	
guidance 4A	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 4A a displaying regularly updated information to the customer about any disadvantage that they may be operating under (e.g. high, medium, low)  Remarks/Findings: This is an explanatory text only.  RTS implementation guidance 4A a applying a handicapping system based on estimated performance and/or system latency  Remarks/Findings: This is an explanatory text only.  RTS requirement 4B a disadvantage because of technical issues such as simultaneous and implementing a policy on how simultaneous wins are to be dealt with.  Remarks/Findings: This is an explanatory text only.  RTS implementation guidance 4A a disadvantage because of technical issues such as slower network speeds, or slower end user device performance.  RTS implementation guidance 4B and issues such as slower network speeds, or slower end user device performance.  RTS aim 5 To ensure that the gambling system implements the operator's rules, game rules and betting rules as they are described to the customer.  Remarks/Findings: This is an explanatory text only.  RTS requirement 5A processed and settled in accordance with the operator's published terms and rules, and the rules of the specific game, event, or bet.  REMARKs/Findings: The game operates and interacts according to the published rules, and the rules of the specific game, event, or bet.  REMARKs/Findings: This is a game only test report. Platform functions have not been tested.  RTS implementation guidance 5A a remarks/Findings: This is an explanatory text only.  REMARKs/Findings: This is a game only test report. 		Remarks/Findings: This is an explanatory text only.	

RTS aim 6	To minimise the risk that customers are misled about the likelihood of winning due to the behaviour of play-for-free games.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 6A	Play-for-free games must implement the same game rules as the corresponding play-for-money games offered on the same facilities (ie the same website). Operators must take all reasonable steps to ensure that play-for-free games accurately represent the likelihood of winning and prize distribution in the play-for-money game. For the purpose of this requirement playing a game includes participating in a lottery and/or betting on a virtual event.	Not Applicable
	Remarks/Findings: Play-for-fun is out of scope of this test report. Testing is restricted to the play-for-money game.	
RTS requirement 6A (continued)	Operators must take all reasonable steps to ensure that play-for-fun games accurately represent the likelihood of winning and prize distribution in the play-formoney game.	Not Applicable
	Remarks/Findings: Play-for-fun is out of scope of this test report. Testing is restricted to the play-for-money game.	
RTS requirement 6A (continued)	For the purpose of this requirement playing a game includes participating in a lottery and/or betting on a virtual event.	Not Applicable
	Remarks/Findings: This is not a lottery and/or betting on a virtual event game.	
RTS implementation guidance 6A a.	The play-for-free game should use the same RNG as the corresponding play-for-money games, another RNG that fulfils the requirements set out in RTS requirement 7A, or a publicly available RNG, (such as those available as standard within operating systems) that may reasonably be expected to produce no systematic bias.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 6A	Where 6a is not reasonably possible, it should be demonstrated that the method of producing outcomes does not introduce a systematic bias, for example:	
b.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 6A	if tables of random numbers are used, they should be sufficiently long to support a large number of games without repeating	
b. i.	Remarks/Findings: This is an explanatory text only.	
guidance 6A	the method should represent game probabilities accurately, ie it should not produce a higher than expected proportion of winning outcomes.	
b. ii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 6A c.	The prize distribution should accurately represent the play-for-money game. For example, where play-for-free games use virtual cash, the virtual cash payouts should be the same as the corresponding play-for-money game, and where tokens are used, the allocation of tokens as prizes should be proportionate to the stakes and prizes in the play-for-money game.	
	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 6A d.	Where videos are used to advertise a game's features it should be made clear to consumers where footage has been edited or sped-up for promotional purposes. Similarly, where a non-consumer (eg supplier's) website is demonstrating a game with higher than normal returns (ie on a website that is different to the real money gambling facility websites) it should be made clear that it is a demonstration game specifically designed to demonstrate the bonus features.	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 7	To ensure that games and other virtual events operate fairly.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 7A	Random number generation and game results must be 'acceptably random'. Acceptably random here means that it is possible to demonstrate to a high degree of confidence that the output of the RNG, game, lottery and virtual event outcomes are random, through, for example, statistical analysis using generally accepted tests and methods of analysis. Adaptive behaviour (i.e. a compensated game) is not permitted.	PASS
	Remarks/Findings: This is a game only test report. The correct processing by the game of RNG driven elements was included in the examination. However, since the RNG being used in the platform has already been certified, testing of the RNG itself is not included. See section 'References' for the RNG test report details.	
RTS requirement 7A (continued)	Where lotteries use the outcome of other events external to the lottery, to determine the result of the lottery the outcome must be unpredictable and externally verifiable.	Not Applicable
	Remarks/Findings: This is not a lottery game.	
RTS implementation	RNG's should be capable of demonstrating the following qualities:	
guidance 7A a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7A a. i.	the output from the RNG is uniformly distributed over the entire output range and game, lottery, or virtual event outcomes are distributed in accordance with the expected/theoretical probabilities	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7A a. ii.	the output of the RNG, game, lottery, and virtual event outcomes should be unpredictable, for example, for a software RNG it should be computationally infeasible to predict what the next number will be without complete knowledge of the algorithm and seed value	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7A a. iii.	random number generation does not reproduce the same output stream (cycle), and that two instances of a RNG do not produce the same stream as each other (synchronise)	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation	any forms of seeding and re-seeding used do not introduce predictability	
guidance 7A a. iv.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7A	any scaling applied to the output of the random number generator maintains the qualities above.	
a. v.	Remarks/Findings: This is an explanatory text only.	

For lotteries using external events - where it is not practical to demonstrate 7a the events outcomes should be:   Remarks/Findings: This is an explanatory text only.

guidance 7A c. ii.  Remarks/Findings: This is an explanatory text only.  RTS implementation guidance 7A  players should not have the ability to interact with, come into physical contact with, or manipulate the mechanics of the game.
C. ii. Remarks/Findings: This is an explanatory text only.  RTS implementation guidance 7A players should not have the ability to interact with, come into physical contact with, or manipulate the mechanics of the game.
guidance 7A or manipulate the mechanics of the game.
c. iii.  Remarks/Findings: This is an explanatory text only.
RTS implementation guidance 7A d.  Restricting adaptive behaviour prohibits automatic or manual interventions that change the probabilities of game outcomes occurring during play.  Restricting adaptive behaviour is not intended to prevent games from offering bonus or special features that implement a different set of rules, if they are based on the occurrence of random events.
Remarks/Findings: This is an explanatory text only.
RTS requirement 7B As far as is reasonably possible, games and events must be implemented fairly and in accordance with the rules and prevailing payouts, where applicable, as they are described to the customer.
Remarks/Findings: The game operates and interacts according to the published rules.
RTS implementation guidance 7B Games should implement the rules as described in the rules available to the customer before play commenced.
a. Remarks/Findings: This is an explanatory text only.
RTS implementation guidance 7B  The mapping of the random inputs to game outcomes should be in accordance with prevailing probabilities, pay tables, etc.
b. Remarks/Findings: This is an explanatory text only.

RTS implementation guidance 7B c.	When random numbers, scaled or otherwise, are received, e.g. following a game requesting a sequence of random numbers, they are to be used in the order in which they are received. For example, they may not be discarded due to adaptive behaviour.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7B d.	Numbers or sequences of numbers are not to be discarded, unless they fall outside the expected range of numbers required by the virtual event – such an occurrence should result in an error being logged and investigated.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 7C	Game designs or features that may reasonably be expected to mislead the customer about the likelihood of particular results occurring are not permitted, including substituting losing events with near-miss losing events and simulations of real devices that do not simulate the real probabilities of the device.	PASS
	Remarks/Findings: The game design and/or game features are not misleading.	
RTS implementation guidance 7C a.	Where a virtual event simulates a physical device, the theoretical game probabilities should match the probabilities of the real device (for example, the probability of a coin landing heads must be 0.5 every time the coin is tossed).	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7C	Where multiple physical devices are simulated the probabilities of each outcome should be independent of the other simulated devices.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7C	Games may not falsely display near-miss results, that is, the event may not substitute one losing outcome with a different losing outcome.	
C.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7C d.	Where the event requires a pre-determined layout (for example, hidden prizes on a map), the locations of the winning spots should not change during play, except as provided for in the rules of the game.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7C e.	Where games involve an element of skill, every outcome described in the virtual event rules or artwork should be possible, that is, the customer should have some chance of achieving an advertised outcome regardless of skill.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7C f.	Where a customer contributes to a jackpot pool, that customer should be eligible to win the jackpot whilst they are playing that game, in accordance with the game and jackpot rules.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 7D	The rules, payouts and outcome probabilities of a virtual event or game may not be changed while it is available for gambling, except as provided for in the rules of the game, lottery or virtual event. Such changes must be brought to customer's attention.	PASS
	Remarks/Findings: The game does not support a change of rules, payouts or outcome probabilities.	

RTS implementation guidance 7D a.	Changes to game or event rules, paytables or other parameters that change the way in which a game, lottery, or event works, the winnings paid, or likelihood of winning (except as described in 7Dc), should be conducted with the game or event taken offline or suspended.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D b.	Altered games, lotteries, and events should display a notice that informs customers that the game or event has been changed, for example, 'rules changed', 'new odds', or 'different payouts'.  The notice should be displayed on game selection screens and on the events themselves if it is possible for the customer to go straight to the event without using a selection screen.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D c.	This requirement is not intended to prevent games and virtual events where specified changes occur legitimately, in accordance with the game or event rules, for example:	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D	virtual events, such as virtual racing products where the odds differ from event to event depending on the virtual runners	
c. i.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D	virtual games, such as bingo where the odds of winning are dependent on the number of entrants	
c. ii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D	games with progressive jackpots, where the amount that can be won changes over time	
c. iii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D	games with bonus rounds where different rules apply, so long as these rounds are properly described to the customer	
c. iv.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 7D c. v.	unspecified changes to rules, paytables or other parameters that change the way in which a game, lottery or event works are not permitted, for example, rules that state 'game rules may be changed at any time' would not be acceptable.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 7E	Except in the case of subscription lotteries, the system clearly and accurately display the result of the game or event and the customer's gamble.	PASS
	Remarks/Findings: The required information is clearly and accurately presented to the customer.	
RTS requirement 7E (continued)	The result must be displayed for a length of time that may reasonably be expected to be sufficient for the customer to understand the result of the game or event in the context of their gamble.	PASS
	Remarks/Findings: The game outcome is displayed until a new play is started by the player.	
RTS implementation guidance 7E	The game artwork and text should be sufficient to provide the customer with all of the information required to determine whether they have lost or won, and the value of any winnings.	
	Remarks/Findings: This is an explanatory text only.	

RTS aim 8	To ensure that the customer is still in control of the gambling where auto-play functionality is provided and to minimise the risk that the functionality disadvantages a customer or that auto-play or other strategy advice is misleading.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 8A	The gambling system must provide easily accessible facilities that:	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 8A a.	make available the following three controls, each of which stops auto-play functionality when it is triggered-	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 8A a. i.	'loss limit', ie where the player selects an option to not lose more than X from their starting balance, where X is an amount that can be selected by the player. A 'loss' in this context equates to accumulated auto-play bets minus accumulated auto-play wins.	PASS
	Remarks/Findings: The auto-play function is implemented consistently with the requirements.	
RTS requirement 8A a. ii.	'single win limit' ie single win greater than Y where Y is an amount that can be selected by the player and	PASS
	Remarks/Findings: The auto-play function is implemented consistently with the requirements.	
RTS requirement 8A	'jackpot win' (where applicable).	Not
a. iii.	Remarks/Findings: The game does not support a jackpot.	Applicable
RTS requirement 8A b.	require auto-play to be implemented in such a way that each time a customer chooses to use auto-play they must select the stake, the number of auto-play gambles and at least the first of the above three controls.	PASS
	Remarks/Findings: The auto-play function is implemented consistently with the requirements.	
RTS requirement 8A continued	The number of auto-play gambles must not exceed 100 in one batch. During auto-play the customer must be able to stop the auto-play regardless of how many auto-play gambles they initially chose or how many remain.	PASS
	Remarks/Findings: The number of auto-play gambles does not exceed the maximum permitted number.	
RTS implementation guidance 8A a.	Auto-play should not override any of the display requirements (for example, the result of each gamble must be displayed for a reasonable length of time before the next gamble commences, as set out in RTS 7E).	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 8B	In relation to skill and chance games, strategy advice and auto-play functionality must be fair, not misleading and must not represent a poor choice.	PASS
	Remarks/Findings: Auto-play functionality is implemented consistently with the requirements. The game does not support strategy advice.	
	In implementing this control, the following should be considered, where	
RTS implementation guidance 8B	appropriate:	

RTS implementation guidance 8B	if there is a standard strategy, for example, for well-known games like blackjack, the standard strategy should be used	
i.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 8B	strategies or auto-play should (theoretically) produce at least the average Return to Player (RTP) for the game over time.	
ii.	Remarks/Findings: This is an explanatory text only.	
RTS aim 9	To ensure that progressive jackpot systems operate fairly.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 9A	An explanation of the jackpot rules must be clearly available to the customer before they commit to gamble.	Not Applicable
	Remarks/Findings: The game does not support a jackpot.	
RTS implementation guidance 9A a.	The rules for a jackpot shall describe how it is funded, what the start-up seed and any ceiling values are. The jackpot system's return to player percentage should be displayed as per RTS 3C, this could be one combined game and progressive jackpot RTP figure or broken down into the base game and jackpot component. If a player is not eligible for a game's progressive jackpot prize this should be made clear, along with their respective theoretical RTP.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 9A b.	The rules for a jackpot shall describe how the prizes are determined and awarded, including what happens when two or more players simultaneously trigger the same jackpot, or appear to simultaneously trigger the jackpot, for example due to network latency issues.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 9A c.	All eligible players should be able to see the current jackpot values and these should be updated as frequently as is practicable, particularly after the amount has been reset following a win.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 9A d.	Where a jackpot is capped at a ceiling value, an explanation of how subsequent player contributions are handled should be provided (eg the operation of any redirected overflow or reserve pools).	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 9B	Jackpot systems must be configured and operated with adequate fairness and security.	Not Applicable
	Remarks/Findings: The game does not support a jackpot.	
RTS implementation guidance 9B	The gambling system shall maintain strict access and logging controls over the configuration and changes made to live jackpots.	
a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 9B b.	Where a customer contributes to a jackpot pool, that customer should be eligible to win the jackpot whilst they are playing that game. The chances of winning a jackpot should increase in correlation with the amount contributed.	
	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 9B c.	Where a jackpot containing player contributions is decommissioned those contributions need to be returned fairly according to the circumstances, with priority given to the players who made the contributions. Some example methods to achieve this include: i. waiting until the jackpot is next awarded before decommissioning it. ii. adding any remaining contributions onto another jackpot system, preferably one with a similar player base. iii. returning remaining contributions as a one off event, with adequate customer disclosure to explain the origin of money.  Remarks/Findings: This is an explanatory text only.	
DTC implementation		
RTS implementation guidance 9B d.	The gambling system shall ensure that a winning customer is notified of a jackpot win immediately after it is triggered and that other participating customers are adequately notified of the jackpots reset value.	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 10	To ensure that customers are treated fairly in the event of interrupted play or betting and that they are aware of how they will be treated if interruptions occur.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 10A	Operators must take all reasonable steps to ensure that their policies for instigating or dealing with service interruptions are fair and do not systematically disadvantage customers.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
RTS implementation	For gaming the following policies should be applied:	
guidance 10A a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 10A a. i.	where an interruption occurs after the operator receives notification of the customer's gamble and where the customer can have no further influence on the outcome of the event or gamble the results of the gamble should stand	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 10A a. ii.	where an interruption to a single-participant single stage event occurs before an outcome has been generated the customer should have any deducted stake returned to their balance	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 10A a. iii.	for stateful games (games where there are multiple stages or decision points), all reasonable steps should be taken to restore the game to its last known state to enable the customer to complete the game	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 10A	games with multiple participants (equal chance or otherwise) should be dealt with fairly on a case-by-case basis	
a. iv.	Remarks/Findings: This is an explanatory text only.	
RTS implementation	progressive jackpot values should be restored to their pre-failure state.	
guidance 10A a. v.	Remarks/Findings: This is an explanatory text only.	
RTS implementation	For peer-to-peer betting the following policies should be applied:	
guidance 10A b.	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 10A b. i.	where a service interruption is caused by failures in the gambling system, operators should suspend betting on all betting markets that have been affected by a significant event before service is restored  Remarks/Findings: This is an explanatory text only.	
RTS implementation	other failures should be dealt with fairly on a case-by-case basis.	
guidance 10A b. ii.	Remarks/Findings: This is an explanatory text only.	
RTS requirement 10B	Systems must be capable of recovering from failures that cause interruptions to gambling, including where appropriate, the capability to void gambles (with or without manual intervention), the capability to suspend betting markets, and taking all reasonable steps to retain sufficient information to be able to restore events to their pre-failure state.	PASS
	Remarks/Findings: The game will be continued from the point of interruption after a renewed login.	
RTS implementation	For gaming the system should:	
guidance 10B a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 10B	be capable of voiding gambles and restoring the amount gambled to the customer automatically, or in conjunction with manual operational controls; and	
a. i.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 10B a. ii.	implement all reasonable measures to maintain sufficient information to be capable of automatically restoring an event to its pre-failure state so that it may be completed by the customer.  The following information should be restored, as appropriate:  • the state of a deck of cards, and any hands that have been dealt  • number of tokens collected  • any other predetermined information, such as maps or prize layouts  • the value of any progressive jackpots  • the state of any gambles, e.g. who has staked what on what outcome  • bets placed or offered.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 10B	For peer-to-peer betting, it should be possible to suspend betting markets manually or automatically.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS requirement 10C	Operators must make available information about their policies regarding service interruptions in various different circumstances.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
RTS implementation guidance 10C	Operators should make information available to customers about how they will be treated in various common scenarios. However, this does not mean that operators have to detail all possible scenarios or responses to service interruptions.	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 11	To reduce the risk that cheating or collusion by players unfairly disadvantages another player and to inform customers about the risks posed.	
	Remarks/Findings: This is an explanatory text only.	

RTS requirement 11A	Measures intended to deter, prevent, and detect collusion and cheating must be implemented. Gambling systems must retain a record of relevant activities to facilitate investigation and be capable of suspending or disabling player accounts or player sessions. Operators must monitor the effectiveness of their policies and procedures.	Not Applicable
	Remarks/Findings: This is not a peer-to-peer game.	
RTS implementation guidance 11A	Relevant activities to be recorded will vary by game but may include:	
a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 11A	which players played at which tables	
a. i.	Remarks/Findings: This is an explanatory text only.

	e. IV.	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 12A e. v.	where a customer sets simultaneous time frames, for example a daily deposit limit and a weekly limit, the lowest limit should always apply. Therefore if a daily deposit limit of £10 and a weekly limit of £100 are both set then the maximum the system should allow to be deposited is £10 per day and £70 per week.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 12B	All reasonable steps must be taken to ensure that customer-led limits are only increased at the customer's request, only after a cooling-off period of 24 hours has elapsed and only once the customer has taken positive action at the end of the cooling off period to confirm their request.	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.	
RTS implementation guidance 12B a.	Where possible (for instance, unless systems/technical failures prevent it) limit reductions are to be implemented within 24 hours of the request being received. In addition, at the point at which the customer requests a decrease in their limit, they should be informed when the limit reduction will take effect.	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 13	To provide customers with facilities to assist them to keep track of the time they spend gambling.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 13A	Where the gambling system uses full screen client applications that obscure the clock on the customer's device the client application itself must display the time of day or the elapsed time since the application was started, wherever practicable.	PASS
	Remarks/Findings: Where the gambling system uses full screen client applications, the time of day is displayed on the game screen at all times.	
RTS implementation guidance 13A	Time of day should either be taken from the customer's own device or 'server time' and should be displayed in hours and minutes.	
a.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 13A	Operators will not be expected to detect whether or not customers have hidden their clocks.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS implementation	Elapsed time should be displayed in minutes and hours.	
guidance 13A c.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 13A	For restricted display devices, time of day or elapsed time should be displayed where the device supports it.	
d.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 13A	In addition, customers may be offered the ability to set a session or game-play duration reminder.	
e.	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 13B b.  RTS implementation guidance 13B b.  The reality check should continue to appear at the selected time intervals until the customer's gaming session ends (see definition of terms) or the customer exits their account (this will depend on solutions i ii iii below). If a customer is participating in slots games in between draws) the gaming sessions began when the player commenced with the first product. The reality check facility could be implemented via one of the following ways:  i. Player account level implementation. The optimum approach would enable customers to set a reality check reminder for their account, which would commence at the start of the first gaming session and roll over to subsequent sessions. An alternative solution would be for the reality check to commence before a customer accesses a gaming session (eg at account log in stage). The second solution would meet the requirement although it would not take into account natural breaks in play, such as when customers are in the casino lobby.  ii. Product level implementation. This approach will enable a customer to set a reality check for each individual gaming session, for example the player commences playing roulette and then later starts playing blackjack and has two reality checks running concurrently but covering different time periods.  iii. Hybrid solution. Some games are subject to reality check and others are subject to a single reality check and live dealer products are subject to a separate reality check.  Remarks/Findings: This is an explanatory text only.  RTS implementation guidance 13B  b. (continued)  RTS implementation  Guidance 13B  c.  RTS implementation  The reality check should offer the customer the facility to exit the gaming session or log out of their account (depending on which of the above solutions is adopted).  REMS implementation  The reality check should provide a link to the customer's account history.	RTS requirement 13B  RTS implementation guidance 13B a.	The gambling system must provide easily accessible facilities that make it possible for customers to set a frequency at which they will receive and see on the screen a reality check within a gaming session. A 'reality check' means a display of the time elapsed since the session began. The customer must acknowledge the reality check for it to be removed from the screen.  Remarks/Findings: This is a game only test report. Platform functions have not been tested.  The customer should be offered the opportunity to set or amend a reality check via easily accessible means at all times. Customers should be able to select a frequency at which the reality check will appear on the screen. Customers can be presented with a pre-set list time periods but these must have a reasonable and appropriate range from which to select and where a default time period is offered it	Not Applicable
RTS implementation guidance 13B b.  The reality check should continue to appear at the selected time intervals until the customer's gaming session ends (see definition of terms) or the customer exits their account (this will depend on solutions i ii iii below). If a customer is participating in multiple gaming sessions at once (eg playing bingo as well as participating in slots games in between draws) the gaming session began when the player commenced with the first product. The reality check facility could be implemented via one of the following ways:  i. Player account level implementation. There are two potential solutions for account level implementation. The optimum approach would enable customers to set a reality check reminder for their account, which would commence at the start of the first gaming session and roll over to subsequent sessions. An alternative solution would be for the reality check to commence before a customer accesses a gaming session (eg at account log in stage). The second solution would meet the requirement although it would not take into account natural breaks in play, such as when customers are in the casino lobby.  ii. Product level implementation. This approach will enable a customer to set a reality check for each individual gaming session, for example the player commences playing roulette and then later starts playing blackjack and has two reality checks running concurrently but covering different time periods.  iii. guidance 13B d. Remarks/Findings: This is an explanatory text only.	guidance 13B		

RTS implementation guidance 13B e.	The reality check can be presented at the end of a game but a player cannot be permitted to commit further funds to a new game until they have acknowledged the reality check, unless it occurs mid-way through a multi-state game such as blackjack where a player would need to commit additional funds if they wanted to split or double down.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 13B	The reality check must prevent a new game within an auto-play sequence from commencing until the player has acknowledged the reality check.	
f.	Remarks/Findings: This is an explanatory text only.	
RTS aim 14	To ensure that products are designed responsibly and to minimise the likelihood that they exploit or encourage problem gambling behaviour.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 14A	Gambling products must not actively encourage customers to chase their losses, increase their stake or increase the amount they have decided to gamble, or continue to gamble after they have indicated that they wish to stop.	PASS
	Remarks/Findings: Customers are not actively encouraged to play.	
RTS implementation guidance 14A a.	By actively encourage, we mean the inclusion of specific features, functions or information that could reasonably be expected to encourage a greater likelihood of the behaviours described occurring.  For example:	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 14A a. i.	the amount of funds taken into a product should not be topped up without the customer choosing to do so on each occasion, e.g. when a customer buys-in at a poker table they should have to choose to purchase more chips to play at the table - automatic re-buys should not be provided	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 14A	written or graphical information should not encourage customers to try to win back their losses	
a. ii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 14A	customers who have chosen to exit a game should not be encouraged to continue playing by, for example, being offered a free game.	
a. iii.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 14A b.	This requirement is not intended to prevent operators from offering special features or well-known games such as blackjack that allow customers to increase their stake on the occurrence of specific events (e.g. split).	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 15	To make the customer aware that they may not have the latest information available when betting on live events, and that they may be at a disadvantage to operators or other customers who have more up-to-date information.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 15A	Information must be made available that explains that 'live' TV or other broadcasts are delayed and that others may have more up-to-date information.	Not Applicable
	Remarks/Findings: The game does not support 'live' TV or other broadcasts.	

RTS requirement	Main in-play betting pages must include this information where practicable.	Not Applicable
(continued)	Remarks/Findings: The game does not support 'live' TV or other broadcasts.	Applicable
RTS implementation guidance 15A a.	Brief information should be included on main in-play pages or screens, such as the in-running home page or screen. More detail should be provided in 'help' or 'how to' or other product pages or screens.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 15A	For telephone betting the information should be included in the general betting or product information that is made available to and/or sent out to customers.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 15A c.	Where a brief notice cannot be practicably included on the main pages or screens, the information should be provided on easily accessible 'help', 'how to' or other product pages or screens.	
	Remarks/Findings: This is an explanatory text only.	
RTS aim 16	To make customers in peer-to-peer gambling aware that they may be gambling against a software program (designed to automatically participate in gambling within certain parameters, sometimes referred to as a bot), or a human aided by third party software.	
	Remarks/Findings: This is an explanatory text only.	
RTS requirement 16A	Where peer-to-peer customers may be gambling against programs deployed by other customers to play on their behalf, or customers assisted by third party software, information should be made available that describes that this is possible, and if it is against the operator's terms and conditions, how to report suspected use.	Not Applicable
	Remarks/Findings: This is not a peer-to-peer game.	
RTS implementation guidance 16A a.	The warning and information about how to complain should be included in game descriptions, rules, terms and conditions, 'help', 'how to play' or other general product information pages.	
	Remarks/Findings: This is an explanatory text only.	
RTS implementation guidance 16A	The warning should also inform customers that if they use a program to gamble on their behalf, other customers may be able to exploit it.	
b.	Remarks/Findings: This is an explanatory text only.	
RTS requirement 16B	Operators must make it clear to players whether the use of third party software is permitted and if so which types. Operators that prohibit certain types of third party software must implement measures intended to deter, prevent, and detect their use.	Not Applicable
	Remarks/Findings: This is not a peer-to-peer game.	
RTS implementation guidance 16B	Clear, accessible information about the types of software that are permitted or prohibited should be included within terms and conditions and the players guide (LCCP Social responsibility code 4.2.3), as a minimum. This does not have to be an extensive list but could be a description of the key features of the software.	
	Remarks/Findings: This is an explanatory text only.	

Where operators use programs to participate in gambling on their behalf in peer-to-peer gambling, easily accessible information must be displayed, which clearly informs customers that the operator uses this kind of software.

#### **APPENDIX A: Game rules**

#### Fruity Burst Jackpot

#### Fruity Burst Jackpot

Fruity Burst Jackpot is an exciting game with an Exploding Symbols feature and a fixed amount Jackpot

#### Fruity Burst Jacknot Feature

Fruity Burst Jackpot features a fixed amount marketing prize of £500 (not funded by player stakes) that will pay out on average every 24 hours. Only players who have staked at least 20p on each spin will be eligible to win the Jackpot. The jackpot is not associated with any reel icons so you can win the jackpot even if you don't win on any of your spins. The chance of winning the jackpot is time-based with the chance increasing over time until the jackpot has been won, at which point the probability will reset to the original odds

All symbol combinations defined in the pay table will trigger the Exploding Reels feature during game play. All winning symbol combinations are evaluated and values are displayed in the "Won' field. All winning symbols in the combination disappear. All symbol positions on each reel are filled as symbols tumble from above, in sequence, to fill the empty spaces. The game screen is re-evaluated for symbols in winning combinations and values are displayed in the 'Won' field. At the point when no winning symbol combinations are created and all wins are accumulated, winnings are credited to the user's account balance.

The Exploding Reels feature remains active until no winning symbol combinations are created.

#### Pay Table

Winnings are dependent on the symbols displayed on the line once the reels have come to a stop. 5 or more matched symbols pay multiples of the stake amount Please refer to the paytable in the game itself for more details.

#### Game Rules

#### General Rules

- Minimum and Maximum stake are at the operator's discretion.
   The maximum payout on this game is £55,000°. If you match any symbols and consecutive symbols that would normally lead to a payout above this amount you will automatically receive the maximum payout and no amount higher than this can be achieved on a single bet. Maximum payout limit does not apply to jackpot wins.
- Any winning combination of matched symbols must be linked adjacently in a horizontal or vertical direction.
- Winnings are paid out on the highest combination on each enabled line only.
- Exploding Reels will activate on winning lines only. In the event of a winning line the winning symbols will be removed and symbols will fall from above to fill the space. This set of symbols will then be evaluated for winning lines and so on. The Exploding Reels feature will continue until there are no longer any winning symbol combinations.
   Autoplay functionality may be available where the game will play out until triggered to stop via; a spin limit, wins of a set amount, losses of a set amount or jackpot win (where

#### Pay Table

Winnings are dependent on the symbols displayed on the line once the reels have come to a stop. 5 or more matched symbols pay multiples of the stake amount Please refer to the paytable in the game itself for more details.

#### Game Rules

#### General Rules

- Minimum and Maximum stake are at the operator's discretion.
- The maximum payout on this game is £55,00°. If you match any symbols and consecutive symbols that would normally lead to a payout above this amount you will automatically receive the maximum payout and no amount higher than this can be achieved on a single bet. Maximum payout limit does not apply to jackpot wins.

  Any winning combination of matched symbols must be linked adjacently in a horizontal or vertical direction.

  Winnings are paid out on the highest combination on each enabled line only.

- Exploding Resis will activate on winning lines only. In the event of a winning line the winning symbols will be removed and symbols will fall from above to fill the space. This set of symbols will then be evaluated for winning lines and so on. The Exploding Reels feature will continue until there are no longer any winning symbol combinations.
- Autoplay functionality may be available where the game will play out until triggered to stop via; a spin limit, wins of a set amount, losses of a set amount or jackpot win (where applicable).

\*All amounts shown here are in the base currency used on the platform which is GBP. We use a currency display rate conversion which may vary depending on the actual exchange rate at the time. The display rate may also vary from the actual exchange rate

Average RTP is 95.5% (based on average gameplay).

#### Disconnections and Game Recovery

If your connection to a game is lost for whatever reason, e.g. internet connection problems, or manually quitting/closing the game, while a game is in progress the game will still complete and you will receive any winnings due. You can still see the results in Bet History after completion of the game.

#### Malfunction

In the case of any malfunction, all bets and winnings are null and void.
