1. TEST INSTITUTE

Trisigma B.V. (hereafter Trisigma) provides compliance and type approval services to the gaming industry and authorities. The Trisigma test labs are located in The Netherlands and have extensive facilities for testing and approval of online and landbased gaming systems.

2. REPORTING

This report presents the Trisigma final conclusion of compliance, the scope of examination, the specific identification of the gaming system and an overview of the applicable requirements including the assessment concerning the gaming system under examination. The results included in this report exclusively relate to the product tested, in accordance with the identification data of the product as specified in this document.

This report has been constructed under the supervision and responsibility of Trisigma's Quality Manager. Every effort has been made to ensure the quality and accuracy of the information contained in this report. If errors or omissions are discovered, please contact us with details. Trisigma B.V. reserves the right to issue revisions of this test report if additional information is presented or discovered.

3. TEST METHODS

Trisigma examines gaming systems using accredited and recognised assessment methods. These methods cover all applicable components and characteristics of the product under examination.

Qualified test engineers carry out a comprehensive compilation of test methods using documentation review, measurements, evaluation of calculations and simulations, statistical tests, functional tests, visual assessment, sourcecode analyses and supervised builds in order to examine the product from a requirements point of view. These test methods comprise the functional and statistical behavior of the gaming system.

Product name: Bingo 90

4. GENERAL REPORT DATA

Report number	3s.23.022_UK-multi.R0
Jurisdiction	United Kingdom
Requirements	Remote gambling and software technical standards June 2017
Additional regulations or directions	Testing strategy for compliance with remote gambling and software technical standards, November 2018.
Test dates	2 - 9 November 2020
Project Engineer	S. Schoonderbeek
Revision information	Not applicable
References	3s.19.709_UK-GI.R0 Report Random Number Generator (RNG)

5. APPLICANT DATA

Company name	Virtue Fusion (Alderney) Ltd
Address	Midcity Place, 71 High Holborn, Holborn WC1V 6QS LONDON UNITED KINGDOM
Contact	Mr K. Prosper

6. CONCLUSION

The game complies with the Remote gambling and software technical standards, issued by the Gambling Commission.

The game has been tested in accordance with the procedure for testing of the 'Testing strategy for compliance with remote gambling and software technical standards, November 2018'.

The game has been assessed on the English language version.

NOTE

Software that meets the requirements of the RTOS is considered by the Gibraltar Gambling Commissioner's office to be compliant with the requirements of the Gibraltar RTOS.

A game that complies with the requirements of the Gambling Commission is considered to comply with the applicable requirements of the GBA Alderney Gambling Control Commission, the Isle of Man Gambling Supervision Commission and the Malta Gaming Authority (MGA).

7. GAME INFORMATION

Type of game	Bingo game
Client delivery channel	HTML5 browser based for Desktop (PC)
Game rules	Bingo 90 is a 90-ball video bingo game. A 90-ball bingo 'ticket' is divided into 3 rows, 9 columns and contains 15 numbers.
Jackpot	Yes
Game software identification	20.4.0
Target percentage RTP	Not applicable
Maximum autoplay games	Not applicable

8. PLATFORM AND TEST EQUIPMENT INFORMATION

Platform information:

Supplier	Playtech Bingo
Version	20.4.0

The game was tested with the following equipment:

Device	Operating System	Browser
Desktop PC HP Pavillion Desktop TP01-0318nb Intel i7 9700 (16GB RAM)	Windows 10 Pro	Google Chrome, version 86
Desktop PC Pavillion TP01- 1545nd Intel i7 10700 (16GB RAM)	Windows 10 Pro	Google Chrome, version 86

Product name: Bingo 90

9. REQUIREMENTS - TEST RESULTS OVERVIEW

Requirements within the scope of this report are included in this test results overview. Where requirements are applicable to either game or platform these requirements are included in this test result overview, and are marked 'Not Applicable' when compliance is determined only by the platform.

Article	Requirement text	Test #	Verdict
RTS aim 1	To provide customers with easily accessible information about their current balances and facilities that enable them to review previous gambling and account transactions.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 1A	Where customers hold a credit or debit balance, the pages or screens used for gambling and to move money into and out of accounts must display the customer's current account balance, in the currency of their account (eg dollars, euros or pounds sterling), whenever that customer is logged in. Where it is not practical to display current balance from gambling screens then easily accessible links to this information must be provided.	16	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS implementation guidance 1A	Gambling pages and screens include virtual game pages, sports betting coupons, poker and other virtual gaming 'tables'.	16	
a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 1A b.	For telephone betting this information is to be delivered at the customer's request by the customer service agent or automated response system	16	
D.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 1B	Customers must have easy access to at least three months account and gambling history without having to contact the licensee. A minimum of 12 months of gambling and account history must be made available on request. The ability to request this information should be made clear to customers and be provided as soon as is practicable.	10	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS implementation guidance 1B	The gambling and account history should include:	10

		Remarks/Findings: This is an explanatory text only.		

RTS aim 2	To enable the customer to understand the value and content of their transactions.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 2A	The remote gambling system must make available clear information about the amount of money being gambled by the customer, including any conversions from one form of currency to another, or from currency to credits, chips or other tokens etc, at the point of conversion.	10	PASS
	Remarks/Findings: The required information is clearly stated on the artwork.		
RTS implementation guidance 2A a.	The financial commitment for each gamble should be displayed somewhere on the screen either in the currency of the customer's account or in the currency of the product. The use of credits, chips or other tokens with no face value should only be used when the corresponding currency amount is clearly visible, or where the customer is not staking additional money such as a poker tournament.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 2A b.	Any conversion from one currency to another should be clearly presented to the customer and any conversion rules are also to be presented. Where currency is converted into tokens, chips or credits, etc, the conversion should be clearly displayed.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Information about the value of the gamble should be displayed including, as appropriate:	10	
guidance 2A c.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	unit stake and total stake, whether currency, credit, tokens, chips, or any other form of payment	10	
guidance 2A c. i.	Remarks/Findings: This is an explanatory text only.

implementation guidance 2B a. ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	the accepted odds, for example current odds, starting price, first show, etc.	10	
guidance 2B a. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	the odds format that will take precedence in settling bets must be set out in the rules.	10	
guidance 2B a. iv.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	These items, where relevant, are also required on applications designed for use on restricted display devices.	10	
guidance 2B a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	For telephone gambling the content of the customer's bet should be read back to them before the bet is confirmed.	10	
guidance 2B b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 2B c.	Where the customer is able to choose, through the use of a third party user-interface, to override the display of this information, this must not be the default option. That is, the customer must make an active choice not to have the information available or to install a user-interface that does not contain the information. The remote gambling system should continue to make available or send the information to the customer; it should not assume that the information is not required.	10	
	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 2B	For subscription lotteries, sending a confirmation by email or post and/or displaying the first draw and the number of draws for which the customer will be entered is sufficient.	10	
d.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 2C	The gambling system must enable customers to choose whether to accept price fluctuations (in either direction) that occur after their bet is requested.	10	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS implementation	Players should be presented with options to control whether a price change should be accepted or not.	10	
guidance 2C a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 2C b.	These options must be presented on a per bet basis, except in circumstances where a customer has requested a default account setting to disable price change alerts prior to bet acceptance. Where the functionality is offered at an account level the default option should not be set to accept all fluctuations. Where a customer chooses not to accept price changes automatically any bet where the price changes must be reoffered before it is accepted.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Information sufficient to explain the options to the customers should be provided.	10	
guidance 2C c.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 2C d.	An optimum solution would enable consumers to choose to automatically accept price movements within a particular margin range. Account level options offered to consumer could include accepting all bets with higher price, accepting all bets with shorter price or accepting all bets regardless of price movements.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS	This requirement does not intend to capture currency fluctuations	10	
implementation guidance 2C e.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 2D	Customer who choose to use third party user interfaces must be informed that applications may not display full information about their gambles.	10	Not Applicable
	Remarks/Findings: The game does not support third party user interfaces.		
RTS implementation guidance 2D	Information should be included in terms and conditions, rules or other general information about the gambling product that is made available to and/or sent out to customers.	10	
	Remarks/Findings: This is an explanatory text only.

	Remarks/Findings: This is an explanatory text only.		
RTS implementation	the rules for entering a single lottery draw or a series of lottery draws and the frequency of the draws.	10	
guidance 3A d.viii.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 3B	Where relevant, as the game or event progresses, information that may reasonably be expected to enable the customer to understand the current state must be displayed.	10	PASS
	Remarks/Findings: The required information is displayed on the artwork.		
RTS implementation	The following items provide guidelines on the type of information that may be relevant.	10	
guidance 3B	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Where a game builds up a collection of tokens (symbols etc), the current number collected.	10	
guidance 3B a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	An indication of which rules are currently relevant, such as displaying 'bonus round' or other feature labels.	10	
guidance 3B b.	Remarks/Findings: This is an explanatory text only.		
RTS	This requirement does not apply to lotteries.	10	
implementation guidance 3B c.	Remarks/Findings: This is an explanatory text only.		

RTS requirement 3C	For each virtual event, game (including bingo), or lottery, information that may reasonably be expected to enable the customer to make an informed decision about his or her chances of winning must be easily available before the customer commits to gamble. Information must include: i. a description of the way the game works and the way in which winners are determined and prizes allocated ii. house edge (or margin) iii. the return to player (RTP) percentage or iv. the probability (likelihood) of winning events occurring. Remarks/Findings: The required information is visible without staking	10	PASS
	money.	l.	
RTS implementation guidance 3C	The following items provide further guidance on acceptable types of information about the likelihood of winning:	10	
a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3C a. i.	for types of peer-to-peer games where the likelihood of winning may depend on skill and/or the actions of other participants, a description of the way the game works and how winners are determined will be sufficient;	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3C a. ii.	for bingo, and some types of lottery or other games where it is not possible to determine the likelihood of winning because it depends on the eventual number of participants, a description of the way in which prizes are allocated will be sufficient.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3C a. iii.	the average theoretical return to player percentage. Where an event (other than peer-to-peer) involves an element of skill, return to player percentage should be calculated using either the auto-play strategy or a standard/published strategy;	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	the house edge, margin or over-round, for example for a virtual race;	10	
guidance 3C a. iv.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3C a. v.	the probability of each winning event occurring, or such information as may reasonably be expected to allow the customer to calculate the probability that the event will occur. The nature of some games may mean that the game itself provides sufficient information, for example, the likelihood of rolling a six on a six-sided die would not require further explanation. Remarks/Findings: This is an explanatory text only.	10	
RTS implementation	The odds displayed in virtual event betting should reflect the probability of each event occurring as closely as possible.	10	
guidance 3C a. vi.	Remarks/Findings: This is an explanatory text only.		
	· · · · · · · · · · · · · · · · · · ·		

-	<u></u>		
RTS implementation guidance 3C	Information may be included in artwork and text displayed within the virtual game or event, in 'help' or 'how to play' pages, or other supporting material.	10	
b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3C	Information should be easily accessible, for example by placing links on home pages for gaming or virtual event sections, game selection pages or menus, or within individual games.	10	
C.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 3D	For each virtual event, game (including bingo), or lottery, content describing the potential prizes and payouts or the means by which these are calculated or determined must be easily available before the customer commits to gamble.	10	PASS
	Remarks/Findings: The required information is also accessible while not in game play.		
RTS implementation guidance 3D	Information should be made available about the amounts that customers may potentially win, for example in the form of pay-tables, or by showing the odds paid for particular outcomes.	10	
a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3D	For peer-to-peer games where the prize is determined based on the actions of the participants, a description of the way the game works and the rake or commission taken will be sufficient.	10	
b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3D c.	For lotteries and other types of events where the potential amount or prize paid out may not be known before the customer commits to gamble, describing the way in which the prize amount is determined will be sufficient.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3D	Information may be included in artwork and text displayed within the virtual event, in 'help' or 'how to play' pages, or other supporting material.	10	
d.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3D	Information should be easily accessible, for example by placing links on home pages for gaming sections, game selection pages or menus, or within individual games.	10	
e.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3D	Displays of jackpot amounts that change over time ('progressives') should be updated as frequently as practicable, particularly after the amount has been reset following a win.	10	
f.	Remarks/Findings: This is an explanatory text only.		
RTS aim 4	To reduce the risk that customers are unfairly disadvantaged by technical factors that may affect speed of response, and to ensure customers are made aware of the risk	16	
	Remarks/Findings: This is an explanatory text only.		

Page 14 of 39

RTS requirement 4A	Where speed of interaction has a significant effect on the customer's chance of winning, operators must assess the level of risk and demonstrate to the Commission that they are taking reasonable steps to reduce the risk to customers.	16	Not Applicable
	Remarks/Findings: The game does not support an interaction that has a (significant) effect on the customer's chance of winning.		
RTS implementation	Examples of possible approaches include:	16	
guidance 4A	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 4A a.	estimating the degree of network latency (delay) a customer is experiencing and displaying regularly updated information to the customer about any disadvantage that they may be operating under (e.g. high, medium, low)	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	applying a handicapping system based on estimated performance and/or system latency	16	
guidance 4A b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 4A	treating winning responses that arrive within a period of time as simultaneous and implementing a policy on how simultaneous wins are to be dealt with.	16	
C.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 4B	For time-critical events, the customer should be informed that they might be at a disadvantage because of technical issues such as slower network speeds, or slower end user device performance.	10	Not Applicable
	Remarks/Findings: The game does not support time-critical events.		
RTS implementation	Information should be included in game descriptions, rules, 'help' or 'how to play' pages.	10	
guidance 4B a.	Remarks/Findings: This is an explanatory text only.		
RTS aim 5	To ensure that the gambling system implements the operator's rules, game rules and betting rules as they are described to the customer.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 5A	All reasonable steps should be taken to ensure that gambles are accepted, processed and settled in accordance with the operator's published terms and rules, and the rules of the specific game, event, or bet.	10	PASS
	Remarks/Findings: The game operates and interacts according to the published rules.		
RTS requirement 5A (continued)	Where unexpected system flaws, faults, or errors that affect the customer occur, steps are to be taken as soon as practicable to remedy the problem and ensure that the customer is treated fairly according to the circumstances.	10	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		

RTS implementation guidance 5A	Under normal operation, in the absence of technical faults, the system should act in accordance with the rules.	10	
a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 5A b.	Reasonable steps include testing of systems and new products against the published rules and monitoring the ongoing performance of those products in the live environment. Refer to our testing strategy for more detailed requirements in this area.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 5A c.	Customers should be notified when errors that affect them, for example, incorrectly settled bets, have occurred as soon as practicable after the event occurs. Steps should be taken to rectify the error, for example, by manually adjusting the customer's account.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS aim 6	To minimise the risk that customers are misled about the likelihood of winning due to the behaviour of play-for-free games.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 6A	Play-for-free games must implement the same game rules as the corresponding play-for-money games offered on the same facilities (ie the same website). Operators must take all reasonable steps to ensure that play-for-free games accurately represent the likelihood of winning and prize distribution in the play-for-money game. For the purpose of this requirement playing a game includes participating in a lottery and/or betting on a virtual event.	16	Not Applicable
	Remarks/Findings: Play-for-fun is out of scope of this test report. Testing is restricted to the play-for-money game.		
RTS requirement 6A (continued)	Operators must take all reasonable steps to ensure that play-for-fun games accurately represent the likelihood of winning and prize distribution in the play-for-money game.	16	Not Applicable
	Remarks/Findings: Play-for-fun is out of scope of this test report. Testing is restricted to the play-for-money game.		
RTS requirement 6A	For the purpose of this requirement playing a game includes participating in a lottery and/or betting on a virtual event.	16	Not Applicable
(continued)	Remarks/Findings: This is not a lottery and/or betting on a virtual event game.		
RTS implementation guidance 6A a.	The play-for-free game should use the same RNG as the corresponding play-for-money games, another RNG that fulfils the requirements set out in RTS requirement 7A, or a publicly available RNG, (such as those available as standard within operating systems) that may reasonably be expected to produce no systematic bias.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 6A	Where 6a is not reasonably possible, it should be demonstrated that the method of producing outcomes does not introduce a systematic bias, for example:	16	
b.	Remarks/Findings: This is an explanatory text only.		

DTC	if tables of renders surely and the second state of the second sta	40	
RTS implementation	if tables of random numbers are used, they should be sufficiently long to support a large number of games without repeating	16	
guidance 6A b. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 6A	the method should represent game probabilities accurately, ie it should not produce a higher than expected proportion of winning outcomes.	16	
b. ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 6A c.	The prize distribution should accurately represent the play-for-money game. For example, where play-for-free games use virtual cash, the virtual cash payouts should be the same as the corresponding play-formoney game, and where tokens are used, the allocation of tokens as prizes should be proportionate to the stakes and prizes in the play-formoney game.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 6A d.	Where videos are used to advertise a game's features it should be made clear to consumers where footage has been edited or sped-up for promotional purposes. Similarly, where a non-consumer (eg supplier's) website is demonstrating a game with higher than normal returns (ie on a website that is different to the real money gambling facility websites) it should be made clear that it is a demonstration game specifically designed to demonstrate the bonus features.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS aim 7	To ensure that games and other virtual events operate fairly.	07	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 7A	Random number generation and game results must be 'acceptably random'. Acceptably random here means that it is possible to demonstrate to a high degree of confidence that the output of the RNG, game, lottery and virtual event outcomes are random, through, for example, statistical analysis using generally accepted tests and methods of analysis. Adaptive behaviour (i.e. a compensated game) is not permitted.	07	PASS
	Remarks/Findings: This is a game only test report. The correct processing by the game of RNG driven elements was included in the examination. However, since the RNG being used in the platform has already been tested and assessed separately, testing of the RNG itself is not included. See section 'References' for the RNG test report details.		
RTS requirement 7A (continued)	Where lotteries use the outcome of other events external to the lottery, to determine the result of the lottery the outcome must be unpredictable and externally verifiable.	07	Not Applicable
	Remarks/Findings: This is not a lottery game.		
RTS implementation	RNG's should be capable of demonstrating the following qualities:	07	
guidance 7A a.	Remarks/Findings: This is an explanatory text only.		

implementation guidance 7A a i	ne output from the RNG is uniformly distributed over the entire output ange and game, lottery, or virtual event outcomes are distributed in ccordance with the expected/theoretical probabilities Remarks/Findings: This is an explanatory text only.	07
implementation sh guidance 7A co	ne output of the RNG, game, lottery, and virtual event outcomes hould be unpredictable, for example, for a software RNG it should be omputationally infeasible to predict what the next number will be vithout complete knowledge of the algorithm and seed value	07
Re	Remarks/Findings: This is an explanatory text only.	
implementation str	andom number generation does not reproduce the same output tream (cycle), and that two instances of a RNG do not produce the ame stream as each other (synchronise)	07
Re	Remarks/Findings: This is an explanatory text only.	
	ny forms of seeding and re-seeding used do not introduce redictability	07
a. iv.	Remarks/Findings: This is an explanatory text only.	
implementation ma	ny scaling applied to the output of the random number generator naintains the qualities above.	07
guidance 7A a. v.	Remarks/Findings: This is an explanatory text only.	
implementation de	or lotteries using external events - where it is not practical to emonstrate 7a the events outcomes should be:	07
guidance 7A b.	Remarks/Findings: This is an explanatory text only.	
implementation re-	npredictable, that is, events should be selected only where they may easonably be assumed to be random events	07
guidance 7A b. i.	Remarks/Findings: This is an explanatory text only.	
implementation ma	nable to be influenced by the lottery operator (or external lottery nanager)	07
guidance 7A b. ii.	Remarks/Findings: This is an explanatory text only.	
implementation are	ublicly available and externally verifiable, for example, events that re published in local or national press would be acceptable.	07
guidance 7A b. iii.	Remarks/Findings: This is an explanatory text only.	
implementation the guidance 7A us	for games or virtual events that use the laws of physics to generate the outcome of the game (mechanical RNGs), the mechanical RNG sed should be capable of meeting the requirements in a. where applicable and in addition:	07
Re	Remarks/Findings: This is an explanatory text only.	
implementation de guidance 7A dis	ne mechanical pieces should be constructed of materials to prevent ecomposition of any component over time (e.g. a ball shall not isintegrate)	07
c. i.	Remarks/Findings: This is an explanatory text only.	

RTS implementation guidance 7A c. ii.	the properties of physical items used to choose the selection should not be altered Remarks/Findings: This is an explanatory text only.	07	
RTS implementation guidance 7A c. iii.	players should not have the ability to interact with, come into physical contact with, or manipulate the mechanics of the game. Remarks/Findings: This is an explanatory text only.	07	
RTS implementation guidance 7A d.	Restricting adaptive behaviour prohibits automatic or manual interventions that change the probabilities of game outcomes occurring during play. Restricting adaptive behaviour is not intended to prevent games from offering bonus or special features that implement a different set of rules, if they are based on the occurrence of random events.	07	
RTS requirement	Remarks/Findings: This is an explanatory text only. As far as is reasonably possible, games and events must be	07	PASS
7B	implemented fairly and in accordance with the rules and prevailing payouts, where applicable, as they are described to the customer.		1 400
	Remarks/Findings: The game operates and interacts according to the published rules.		
RTS implementation	Games should implement the rules as described in the rules available to the customer before play commenced.	07	
guidance 7B a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	The mapping of the random inputs to game outcomes should be in accordance with prevailing probabilities, pay tables, etc.	07	
guidance 7B b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7B c.	When random numbers, scaled or otherwise, are received, e.g. following a game requesting a sequence of random numbers, they are to be used in the order in which they are received. For example, they may not be discarded due to adaptive behaviour.	07	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7B d.	Numbers or sequences of numbers are not to be discarded, unless they fall outside the expected range of numbers required by the virtual event – such an occurrence should result in an error being logged and investigated.	07	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 7C	Game designs or features that may reasonably be expected to mislead the customer about the likelihood of particular results occurring are not permitted, including substituting losing events with near-miss losing events and simulations of real devices that do not simulate the real probabilities of the device.	10	PASS
	Remarks/Findings: The game design and/or game features are not misleading.		

RTS implementation guidance 7C a.	Where a virtual event simulates a physical device, the theoretical game probabilities should match the probabilities of the real device (for example, the probability of a coin landing heads must be 0.5 every time the coin is tossed).	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Where multiple physical devices are simulated the probabilities of each outcome should be independent of the other simulated devices.	10	
guidance 7C b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7C	Games may not falsely display near-miss results, that is, the event may not substitute one losing outcome with a different losing outcome.	10	
C.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7C	Where the event requires a pre-determined layout (for example, hidden prizes on a map), the locations of the winning spots should not change during play, except as provided for in the rules of the game.	10	
d.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7C e.	Where games involve an element of skill, every outcome described in the virtual event rules or artwork should be possible, that is, the customer should have some chance of achieving an advertised outcome regardless of skill.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7C	Where a customer contributes to a jackpot pool, that customer should be eligible to win the jackpot whilst they are playing that game, in accordance with the game and jackpot rules.	10	
f.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 7D	The rules, payouts and outcome probabilities of a virtual event or game may not be changed while it is available for gambling, except as provided for in the rules of the game, lottery or virtual event. Such changes must be brought to customer's attention.	07	PASS
	Remarks/Findings: The required information is presented correctly.		
RTS implementation guidance 7D a.	Changes to game or event rules, paytables or other parameters that change the way in which a game, lottery, or event works, the winnings paid, or likelihood of winning (except as described in 7Dc), should be conducted with the game or event taken offline or suspended.	07	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7D b.	Altered games, lotteries, and events should display a notice that informs customers that the game or event has been changed, for example, 'rules changed', 'new odds', or 'different payouts'. The notice should be displayed on game selection screens and on the events themselves if it is possible for the customer to go straight to the event without using a selection screen.	07	
	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 7D	This requirement is not intended to prevent games and virtual events where specified changes occur legitimately, in accordance with the game or event rules, for example:	07	
C.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	virtual events, such as virtual racing products where the odds differ from event to event depending on the virtual runners	07	
guidance 7D c. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	virtual games, such as bingo where the odds of winning are dependent on the number of entrants	07	
guidance 7D c. ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	games with progressive jackpots, where the amount that can be won changes over time	07	
guidance 7D c. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	games with bonus rounds where different rules apply, so long as these rounds are properly described to the customer	07	
guidance 7D c. iv.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7D c. v.	unspecified changes to rules, paytables or other parameters that change the way in which a game, lottery or event works are not permitted, for example, rules that state 'game rules may be changed at any time' would not be acceptable.	07	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 7E	Except in the case of subscription lotteries, the system clearly and accurately display the result of the game or event and the customer's gamble.	10	PASS
	Remarks/Findings: The required information is clearly and accurately presented to the customer.		
RTS requirement 7E (continued)	The result must be displayed for a length of time that may reasonably be expected to be sufficient for the customer to understand the result of the game or event in the context of their gamble.	10	PASS
	Remarks/Findings: The game outcome is displayed for a sufficient length of time.		
RTS implementation guidance 7E	The game artwork and text should be sufficient to provide the customer with all of the information required to determine whether they have lost or won, and the value of any winnings.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS aim 8	To ensure that the customer is still in control of the gambling where auto-play functionality is provided and to minimise the risk that the functionality disadvantages a customer or that auto-play or other strategy advice is misleading.	03	
	Remarks/Findings: This is an explanatory text only.

guidance 10B a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 10B	be capable of voiding gambles and restoring the amount gambled to the customer automatically, or in conjunction with manual operational controls; and	14	
a. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 10B a. ii.	implement all reasonable measures to maintain sufficient information to be capable of automatically restoring an event to its pre-failure state so that it may be completed by the customer. The following information should be restored, as appropriate: • the state of a deck of cards, and any hands that have been dealt • number of tokens collected • any other predetermined information, such as maps or prize layouts • the value of any progressive jackpots • the state of any gambles, e.g. who has staked what on what outcome • bets placed or offered.	14	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	For peer-to-peer betting, it should be possible to suspend betting markets manually or automatically.	14	
guidance 10B b.			

RTS requirement 10C	Operators must make available information about their policies regarding service interruptions in various different circumstances.	14	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS implementation guidance 10C	Operators should make information available to customers about how they will be treated in various common scenarios. However, this does not mean that operators have to detail all possible scenarios or responses to service interruptions.	14	
	Remarks/Findings: This is an explanatory text only.		
RTS aim 11	To reduce the risk that cheating or collusion by players unfairly disadvantages another player and to inform customers about the risks posed.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 11A	Measures intended to deter, prevent, and detect collusion and cheating must be implemented. Gambling systems must retain a record of relevant activities to facilitate investigation and be capable of suspending or disabling player accounts or player sessions. Operators must monitor the effectiveness of their policies and procedures.	16	Not Applicable
	Remarks/Findings: This is not a peer-to-peer game.		
RTS implementation	Relevant activities to be recorded will vary by game but may include:	16	
guidance 11A a.	Remarks/Findings: This is an explanatory text only.		
RTS	which players played at which tables	16	
implementation guidance 11A a. i.	Remarks/Findings: This is an explanatory text only.		
RTS	the amounts won from and lost to accounts	16	
implementation guidance 11A a. ii.	Remarks/Findings: This is an explanatory text only.		
RTS	game activities to an individual bet/action level.	16	
implementation guidance 11A a. iii.	Remarks/Findings: This is an explanatory text only.		
RTS	Where appropriate, prevention measures may include:	16	
implementation guidance 11A b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	taking steps to prevent a player from occupying more than one seat at any individual table.	16	
guidance 11A b. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Detection measures may include, detecting and investigating the following, where appropriate:	16	
guidance 11A c.	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 11A c i.	players who frequently share the same tables	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	players from same address who share the same table	16	
guidance 11A c. ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	suspicious patterns of play (such as chip dumping).	16	
guidance 11A c. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	unusual gameplay statistics.	16	
guidance 11A c. iv.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Customer complaints about cheating should be investigated.	16	
guidance 11A d.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Records should be kept of investigations which result in an account being closed including:	16	
guidance 11A e.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 11A	player details (name, location, which licence the activity was in reliance on), scale of the offences (financial and number of players), time and date etc	16	
e.i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	the reason for investigation (including whether it was initiated by customer contact) and the outcome	16	
guidance 11A e.ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 11A	any relevant evidence such as reports, screenshots, chat history etc. This information should be considered when updating the risks identified in relevant policies and procedures.	16	
e.iii.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 11B	Information must be made available about the operator's policies and procedures with regard to cheating, recovered player funds and about how to complain if a customer suspects other participants are cheating.	16	Not Applicable
	Remarks/Findings: This is not a peer-to-peer game.		
RTS implementation	As a minimum deterrent, customers should be informed that accounts will be closed if the customer is found to have cheated.	16	
guidance 11B a.	Remarks/Findings: This is an explanatory text only.		

		l	
RTS implementation guidance 11B	Information regarding funds that are recovered from accounts during integrity investigations is not expected to cover every scenario but should highlight the main aims of the policy.	16	
b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Relevant information should be included in terms and conditions or rules.	16	
guidance 11B c.	Remarks/Findings: This is an explanatory text only.		
RTS aim 12	To provide customers with facilities that may assist them in sticking to their personal budgets for gambling with the operator. Customers must be also be given the option to set financial limits at an account level.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 12A	The gambling system must provide easily accessible facilities that make it possible for customers to impose their own financial limits.	16	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS requirement 12A (continued)	Customers must be given the opportunity to set a limit as part of the registration process (or at the point at which the customer makes the first deposit or payment).	16	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS implementation guidance 12A a.	For telephone gambling (except lotteries), customers should be asked if they would like to set a deposit or spend limit when they register. Customers should be able to request a limit at any point after registration. The limit should be implemented as soon as practicable after the customer's request. The customer should be informed when the limit will come into force.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 12A b.	For other access media (including internet, interactive TV and mobile), customers should be offered the opportunity to select a deposit/spend limit from a list which may contain a 'no limit' option or to enter a limit of their choice as part of the registration or first deposit process. The 'no limit' option should not be the default option.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS	Limits could be in the form of:	16	
implementation guidance 12A c.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	deposit limits: where the amount a customer deposits into their account is limited over a particular duration	16	
guidance 12A c. i.	Remarks/Findings: This is an explanatory text only.		

Page 28 of 39

RTS implementation guidance 12A c. ii.	spend limits: where the amount a customer spends on gambling (or specific gambling products) is restricted for a given period – this type of limit may be appropriate where the customer does not hold a deposit account with the operator	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 12A	loss limits: where the amount lost (i.e. winnings subtracted from the amount spent) is restricted (for instance when a customer makes a £10 bet and wins £8, the loss is £2).	16	
c. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 12A d.	The period/duration of the limits on offer should include: i. 24 hours and ii. 7 days and iii. one month	16	
	Remarks/Findings: This is an explanatory text only.		
RTS	In addition:	16	
implementation guidance 12A e.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	limits may be implemented per customer, per account, or other means	16	
guidance 12A e. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 12A e. ii.	limits could also be implemented across all products or channels or for individual products or channels. Where limits are also set across separate products it should be clear to customers using the facility that a limit will need to be set for each individuals product. For example, where a limit has been set for a specific game a customer should not be misled into assuming that the limit automatically applies to other products.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	financial limit facilities should be provided via a link on the home page	16	
guidance 12A e. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	facilities should be available on deposit pages/screens or via a link on these pages/screens.	16	
guidance 12A e. iv.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 12A e. v.	where a customer sets simultaneous time frames, for example a daily deposit limit and a weekly limit, the lowest limit should always apply. Therefore if a daily deposit limit of £10 and a weekly limit of £100 are both set then the maximum the system should allow to be deposited is £10 per day and £70 per week.	16	
	Remarks/Findings: This is an explanatory text only.		

RTS requirement 12B	All reasonable steps must be taken to ensure that customer-led limits are only increased at the customer's request, only after a cooling-off period of 24 hours has elapsed and only once the customer has taken positive action at the end of the cooling off period to confirm their request. Remarks/Findings: This is a game only test report. Platform functions	16	Not Applicable
	have not been tested.		
RTS implementation guidance 12B a.	Where possible (for instance, unless systems/technical failures prevent it) limit reductions are to be implemented within 24 hours of the request being received. In addition, at the point at which the customer requests a decrease in their limit, they should be informed when the limit reduction will take effect.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS aim 13	To provide customers with facilities to assist them to keep track of the time they spend gambling.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 13A	Where the gambling system uses full screen client applications that obscure the clock on the customer's device the client application itself must display the time of day or the elapsed time since the application was started, wherever practicable.	10	Not Applicable
	Remarks/Findings: The gambling system does not use full screen client applications.		
RTS implementation	Time of day should either be taken from the customer's own device or 'server time' and should be displayed in hours and minutes.	10	
guidance 13A a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Operators will not be expected to detect whether or not customers have hidden their clocks.	10	
guidance 13A b.	Remarks/Findings: This is an explanatory text only.		
RTS	Elapsed time should be displayed in minutes and hours.	10	
implementation guidance 13A c.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	For restricted display devices, time of day or elapsed time should be displayed where the device supports it.	10	
guidance 13A d.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	In addition, customers may be offered the ability to set a session or game-play duration reminder.	10	
guidance 13A e.	Remarks/Findings: This is an explanatory text only.		

RTS requirement 13B	The gambling system must provide easily accessible facilities that make it possible for customers to set a frequency at which they will receive and see on the screen a reality check within a gaming session. A 'reality check' means a display of the time elapsed since the session began. The customer must acknowledge the reality check for it to be removed from the screen. Remarks/Findings: This is a game only test report. Platform functions have not been tested.	16	Not Applicable
RTS implementation guidance 13B a.	The customer should be offered the opportunity to set or amend a reality check via easily accessible means at all times. Customers should be able to select a frequency at which the reality check will appear on the screen. Customers can be presented with a pre-set list time periods but these must have a reasonable and appropriate range from which to select and where a default time period is offered it must be set at the minimum	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 13B b.	The reality check should continue to appear at the selected time intervals until the customer's gaming session ends (see definition of terms) or the customer exits their account (this will depend on solutions i ii iii below). If a customer is participating in multiple gaming sessions at once (eg playing bingo as well as participating in slots games in between draws) the gaming session began when the player commenced with the first product. The reality check facility could be implemented via one of the following ways: i. Player account level implementation. There are two potential solutions for account level implementation. The optimum approach would enable customers to set a reality check reminder for their account, which would commence at the start of the first gaming session and roll over to subsequent sessions. An alternative solution would be for the reality check to commence before a customer accesses a gaming session (eg at account log in stage). The second solution would meet the requirement although it would not take into account natural breaks in play, such as when customers are in the casino lobby. ii. Product level implementation. This approach will enable a customer to set a reality check for each individual gaming session, for example the player commences playing roulette and then later starts playing blackjack and has two reality checks running concurrently but covering different time periods. iii. Hybrid solution. Some games are subject one reality check and others are subject to another for example all slot games are subject to a separate reality check.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 13B b. (continued)	A clear explanation of how the reality check is implemented must be provided to players so they are aware of how they can use it to assist them in managing their gambling. Where possible a player's preferences should be applied to all future account logins or gaming sessions (where applicable). If this is not possible players must be provided with clear information that explains that they will have to set a reality check for each account login or gaming session.	16	
	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 13B	The reality check should offer the customer the facility to exit the gaming session or log out of their account (depending on which of the above solutions is adopted).	16	
C.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	The reality check should provide a link to the customer's account history.	16	
guidance 13B d.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 13B e.	The reality check can be presented at the end of a game but a player cannot be permitted to commit further funds to a new game until they have acknowledged the reality check, unless it occurs mid-way through a multi-state game such as blackjack where a player would need to commit additional funds if they wanted to split or double down.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 13B	The reality check must prevent a new game within an auto-play sequence from commencing until the player has acknowledged the reality check.	16	
f.	Remarks/Findings: This is an explanatory text only.		
RTS aim 14	To ensure that products are designed responsibly and to minimise the likelihood that they exploit or encourage problem gambling behaviour.	03	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 14A	Gambling products must not actively encourage customers to chase their losses, increase their stake or increase the amount they have decided to gamble, or continue to gamble after they have indicated that they wish to stop.	03	PASS
	Remarks/Findings: Customers are not actively encouraged to play.		
RTS implementation guidance 14A a.	By actively encourage, we mean the inclusion of specific features, functions or information that could reasonably be expected to encourage a greater likelihood of the behaviours described occurring. For example:	03	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 14A a. i.	the amount of funds taken into a product should not be topped up without the customer choosing to do so on each occasion, e.g. when a customer buys-in at a poker table they should have to choose to purchase more chips to play at the table - automatic re-buys should not be provided	03	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	written or graphical information should not encourage customers to try to win back their losses	03	
guidance 14A a. ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 14A	customers who have chosen to exit a game should not be encouraged to continue playing by, for example, being offered a free game.	03	
a. iii.	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 14A b.	This requirement is not intended to prevent operators from offering special features or well-known games such as blackjack that allow customers to increase their stake on the occurrence of specific events (e.g. split).	03	
	Remarks/Findings: This is an explanatory text only.		
RTS aim 15	To make the customer aware that they may not have the latest information available when betting on live events, and that they may be at a disadvantage to operators or other customers who have more up-to-date information.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 15A	Information must be made available that explains that 'live' TV or other broadcasts are delayed and that others may have more up-to-date information.	10	Not Applicable
	Remarks/Findings: The game does not support 'live' TV or other broadcasts.		
RTS requirement 15A	Main in-play betting pages must include this information where practicable.	10	Not Applicable
(continued)	Remarks/Findings: The game does not support 'live' TV or other broadcasts.		
RTS implementation guidance 15A a.	Brief information should be included on main in-play pages or screens, such as the in-running home page or screen. More detail should be provided in 'help' or 'how to' or other product pages or screens.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 15A	For telephone betting the information should be included in the general betting or product information that is made available to and/or sent out to customers.	10	
b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 15A	Where a brief notice cannot be practicably included on the main pages or screens, the information should be provided on easily accessible 'help', 'how to' or other product pages or screens.	10	
C.	Remarks/Findings: This is an explanatory text only.		
RTS aim 16	To make customers in peer-to-peer gambling aware that they may be gambling against a software program (designed to automatically participate in gambling within certain parameters, sometimes referred to as a bot), or a human aided by third party software.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 16A	Where peer-to-peer customers may be gambling against programs deployed by other customers to play on their behalf, or customers assisted by third party software, information should be made available that describes that this is possible, and if it is against the operator's terms and conditions, how to report suspected use.	10	Not Applicable
	Remarks/Findings: This is not a peer-to-peer game.		
-			

Page 33 of 39

RTS implementation guidance 16A a. The warning and information about how to complain should be included for jame descriptions, rules, terms and conditions, 'help', 'how to play' or other general product information pages. 10 Image: Complain should be included for jame descriptions, rules, terms and conditions, 'help', 'how to play' or other general product information pages. 10 Image: Complain should also inform customers that if they use a program to gamble on their behalf, other customers may be able to exploit it. 10 Image: Complain should also inform customers that if they use a program to gamble on their behalf, other customers may be able to exploit it. 10 Image: Complain should also information should they should be retained to general page. 10 Image: Complain should also information should the should be retained by the pages. 10 Image: Complain should should should be retained should be retained and if so which types. Product inspection	Inspection of the correct production of an approved type of gaming machine.	20
Inspection method	Assessment of the inspection method of the gaming system.	21

APPENDIX A: Game rules

90 Ball Bingo

Tickets and Strips

In the 90 Ball Bingo game, a ticket is an individual grid of 27 squares made up of 3 rows and 9 columns.

Each row contains 5 numbers and 4 blank squares. 15 numbers appear on every ticket.

In the 90 Ball Bingo game, a strip is a group of 6 tickets. Every possible number from 1 through to 90 will appear on each full strip.

Game Prizes/Jackpots

The prizes/jackpots offered in each bingo game have a minimum guaranteed jackpot but the actual prize is determined by the number of players/tickets purchased per game. The more players/tickets purchased, the bigger the jackpot!

In some games the prize amount may be rounded.

In each bingo game there are 3 prizes to be won – 1 line, 2 lines and House or Bingo. The player who is the first to have all the numbers called displayed in a horizontal line on their ticket wins the 1 line prize. To win the 2 line prize, the player must have all the numbers called on 2 lines of the same ticket. To win the house or bingo prize the player must have all the numbered squares called on a ticket.

In some games there are only 2 prizes to be won; 1 line and House or only 1 prize to be won; House.

Product name: Bingo 90

You will be a winner and will receive the current prize regardless of whether you have marked the numbers on the winning ticket. The bingo game will automatically identify a win. Winners will be visibly published in bingo and the Bingo Caller will make an announcement.

Two or more players can win/share a prize in bingo (1 line, 2 lines or Full House), i.e. players' may have tickets which meet the prize criteria on the same ball. A single player may also win a prize more than once too! i.e. this can only happen if the player purchased tickets from other strips. In such circumstances the cash prize will be split in equal proportions between the winners. Winnings will be deposited directly into the player's account.

Playing the Game

If you have purchased tickets for the current game when game play begins the interface will change and you will participate in the game of bingo.

Winning a Prize

There are 3 prizes to be won in each bingo game - 1 line, 2 lines and House or Bingo. You win if your ticket is the first to meet the following criteria:

- 1 line win when all the numbers displayed in a horizontal line on a ticket have been called.
- o 2 lines win when all the numbers displayed on 2 lines of 1 ticket have been called.
- o House or Bingo all the numbers displayed on 1 ticket have been called.

If you are playing or watching a game of bingo the Game Details area of the bingo window displays information on the current game:

- o Game Name
- o Number of Players
- Details of the 3 prizes on offer in Bingo 1 line, 2 line, House and the value of each prize
- o The current prize being played for in the game is highlighted

Malfunction

In the case of any malfunction, all bets and winnings are null and void.

Unresolved bets

Unresolved bets placed but remaining undecided in incomplete games will become void after 90 days and will be forfeited to charity
