## 1. TEST INSTITUTE

Trisigma B.V. (hereafter Trisigma) provides compliance and type approval services to the gaming industry and authorities. The Trisigma test labs are located in The Netherlands and have extensive facilities for testing and approval of online and landbased gaming systems.

## 2. **REPORTING**

This report presents the Trisigma final conclusion of compliance, the scope of examination, the specific identification of the gaming system and an overview of the applicable requirements including the assessment concerning the gaming system under examination. The results included in this report exclusively relate to the product tested, in accordance with the identification data of the product as specified in this document.

This report has been constructed under the supervision and responsibility of Trisigma's Quality Manager. Every effort has been made to ensure the quality and accuracy of the information contained in this report. If errors or omissions are discovered, please contact us with details. Trisigma B.V. reserves the right to issue revisions of this test report if additional information is presented or discovered.

### 3. TEST METHODS

Trisigma examines gaming systems using accredited and recognised assessment methods. These methods cover all applicable components and characteristics of the product under examination.

Qualified test engineers carry out a comprehensive compilation of test methods using documentation review, measurements, evaluation of calculations and simulations, statistical tests, functional tests, visual assessment, sourcecode analyses and supervised builds in order to examine the product from a requirements point of view. These test methods comprise the functional and statistical behavior of the gaming system.

# 4. GENERAL REPORT DATA

Report number	3s.23.051_UK-multi.R0	
Jurisdiction	United Kingdom	
Requirements	Remote gambling and software technical standards June 2017	
Additional regulations or directions	Testing strategy for compliance with remote gambling and software technical standards, November 2018.	
Test dates	11 December 2020	
Project Engineers	S. Schoonderbeek

## 5. APPLICANT DATA

Company name	Virtue Fusion (Alderney) Ltd
Address	Midcity Place, 71 High Holborn, Holborn WC1V 6QS_LONDON UNITED KINGDOM
Contact	Mr K. Prosper

## 6. CONCLUSION

The game complies with the Remote gambling and software technical standards, issued by the Gambling Commission.

The game has been tested in accordance with the procedure for testing of the 'Testing strategy for compliance with remote gambling and software technical standards, November 2018'.

The game has been assessed on the English language version.

NOTE

Software that meets the requirements of the RTOS is considered by the Gibraltar Gambling Commissioner's office to be compliant with the requirements of the Gibraltar RTOS.

A game that complies with the requirements of the Gambling Commission is considered to comply with the applicable requirements of the GBA Alderney Gambling Control Commission, the Isle of Man Gambling Supervision Commission and the Malta Gaming Authority (MGA).

# 7. GAME INFORMATION

Type of game	Scratchcard game
Client delivery channel	HTML5 browser based for Desktop (PC)
Game rules	Beachside Bonanza is a video scratchcard game. The game displays 3 rows of 3 scratch panels and awards a prize if 3 symbols are matched.
Jackpot	Yes
Game software identification	20.4.0
Target percentage RTP	90%
Maximum autoplay games	100

## 8. PLATFORM AND TEST EQUIPMENT INFORMATION

Platform information:

Supplier	Playtech Bingo
Version	20.4.0

The game was tested with the following equipment:

Device	Operating System	Browser
Desktop PC Pavillion TP01- 1545nd Intel i7 10700 (16GB RAM)	Windows 10 Pro	Google Chrome, version 87
Desktop PC HP Pavillion TP-01- 0318nb intel i7 (16GB RAM)	Windows 10 Pro	Google Chrome, version 87

# 9. REQUIREMENTS - TEST RESULTS OVERVIEW

Requirements within the scope of this report are included in this test results overview. Where requirements are applicable to either game or platform these requirements are included in this test result overview, and are marked 'Not Applicable' when compliance is determined only by the platform.

Article	Requirement text	Test #	Verdict
RTS aim 1	To provide customers with easily accessible information about their current balances and facilities that enable them to review previous gambling and account transactions.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 1A	Where customers hold a credit or debit balance, the pages or screens used for gambling and to move money into and out of accounts must display the customer's current account balance, in the currency of their account (eg dollars, euros or pounds sterling), whenever that customer is logged in. Where it is not practical to display current balance from gambling screens then easily accessible links to this information must be provided.	16	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS implementation guidance 1A	Gambling pages and screens include virtual game pages, sports betting coupons, poker and other virtual gaming 'tables'.	16	
a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 1A	For telephone betting this information is to be delivered at the customer's request by the customer service agent or automated response system	16	
b.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 1B	Customers must have easy access to at least three months account and gambling history without having to contact the licensee. A minimum of 12 months of gambling and account history must be made available on request. The ability to request this information should be made clear to customers and be provided as soon as is practicable.	10	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS implementation	The gambling and account history should include:	10	
guidance 1B a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 1B	credit and debit information such as deposits, withdrawals, movement of funds between products, payments off credit accounts, entry fee deductions, and bonus information, as appropriate	10	
a.i.	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 1B	bets placed, the results of bets, winnings paid	10	
a.ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 1B a.iii.	For gaming (including bingo) full or summarised gaming information should be available, for example, £10 taken into game, £100 turned over, £3 taken away from game. Where detailed historic game information may not necessarily be directly available to customers, as a minimum, customers must have easy access to details of the last game played and summarised information for previous activities	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 1B	where customers are able to move funds between gambling products, account information and statements should clearly display movement of funds into and out of products	10	
a.iv.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 1B a.v.	an option for customers to use their own defined time period or to select from a range of time periods. A summary total for the period selected should be displayed (at least on the first screen or page if the transactions span multiple screens).	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 1B b.	For telephone betting and restricted display devices, where customers demonstrate that they also have access to websites – by registering online or using other online products – it is acceptable to provide access to statements via these websites, otherwise customers should be sent a regular copy of their statement via email, fax or post unless they elect not to receive this information. Customers should be sent a statement on request, even if they have opted out of receiving regular statements.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 1C	Customers must be able to access information about their net deposits.	10	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS implementation guidance 1C	Net deposits are defined as the running total of all deposits minus the sum of all withdrawals for the lifetime of the account. This should be displayed at an account level so the figure represents the net position of all payment methods. Where full account lifetime history isn't possible then, as a minimum, the net deposits should be displayed from 1 April 2018, or the account opening date if after 1 April 2018. Information which explains the net deposit figure, including the timeframe it covers, should be provided.	10	
	Remarks/Findings: This is an explanatory text only.		

RTS aim 2	To enable the customer to understand the value and content of their transactions.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 2A	The remote gambling system must make available clear information about the amount of money being gambled by the customer, including any conversions from one form of currency to another, or from currency to credits, chips or other tokens etc, at the point of conversion.	10	PASS
	Remarks/Findings: The required information is clearly stated on the artwork.		
RTS implementation guidance 2A a.	The financial commitment for each gamble should be displayed somewhere on the screen either in the currency of the customer's account or in the currency of the product. The use of credits, chips or other tokens with no face value should only be used when the corresponding currency amount is clearly visible, or where the customer is not staking additional money such as a poker tournament.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 2A b.	Any conversion from one currency to another should be clearly presented to the customer and any conversion rules are also to be presented. Where currency is converted into tokens, chips or credits, etc, the conversion should be clearly displayed.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Information about the value of the gamble should be displayed including, as appropriate:	10	
guidance 2A c.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	unit stake and total stake, whether currency, credit, tokens, chips, or any other form of payment	10	
guidance 2A c. i.	Remarks/Findings: This is an explanatory text only.		
RTS	entry fees, for example, payment for entry to poker tournaments	10	
implementation guidance 2A c. ii.	Remarks/Findings: This is an explanatory text only.		
RTS	the price of lottery tickets and the number of draws entered.	10	
implementation guidance 2A c. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 2A	For telephone gambling, this information is to be delivered by the customer service agent or automated response system.	10	
d.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 2A e.	For subscription lotteries, sending a confirmation by email or post and/or displaying the stake and the number of draws entered when the customer subscribes is sufficient.	10	
	Remarks/Findings: This is an explanatory text only.		

		r	
RTS requirement 2B	The gambling system must be designed to display sufficient relevant information about the customer's gamble so that the content of the gamble is clear.	10	PASS
	Remarks/Findings: Instructions are clear and are deemed not to be misleading.		
RTS requirement 2B (continued)	This information must be made available before the customer commits to the gamble including, for example, in the artwork and textual information displayed during gaming, or on an electronic equivalent of a betting slip or lottery ticket.	10	PASS
	Remarks/Findings: The customer is not forced to play by selecting the game. The game can be viewed and rules can be read before laying a wager on the game.		
RTS implementation	The following items provide guidelines about the type of information that may be relevant:	10	
guidance 2B a.	Remarks/Findings: This is an explanatory text only.		
RTS	selections – the items the customer has chosen to gamble on;	10	
implementation guidance 2B a. i.	Remarks/Findings: This is an explanatory text only.		
RTS	the bet type	10	
implementation guidance 2B a. ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	the accepted odds, for example current odds, starting price, first show, etc.	10	
guidance 2B a. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	the odds format that will take precedence in settling bets must be set out in the rules.	10	
guidance 2B a. iv.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	These items, where relevant, are also required on applications designed for use on restricted display devices.	10	
guidance 2B a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	For telephone gambling the content of the customer's bet should be read back to them before the bet is confirmed.	10	
guidance 2B b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 2B c.	Where the customer is able to choose, through the use of a third party user-interface, to override the display of this information, this must not be the default option. That is, the customer must make an active choice not to have the information available or to install a user-interface that does not contain the information. The remote gambling system should continue to make available or send the information to the customer; it should not assume that the information is not required.	10	
	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 2B	For subscription lotteries, sending a confirmation by email or post and/or displaying the first draw and the number of draws for which the customer will be entered is sufficient.	10	
d.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 2C	The gambling system must enable customers to choose whether to accept price fluctuations (in either direction) that occur after their bet is requested.	10	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS implementation	Players should be presented with options to control whether a price change should be accepted or not.	10	
guidance 2C a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 2C b.	These options must be presented on a per bet basis, except in circumstances where a customer has requested a default account setting to disable price change alerts prior to bet acceptance. Where the functionality is offered at an account level the default option should not be set to accept all fluctuations. Where a customer chooses not to accept price changes automatically any bet where the price changes must be reoffered before it is accepted.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Information sufficient to explain the options to the customers should be provided.	10	
guidance 2C c.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 2C d.	An optimum solution would enable consumers to choose to automatically accept price movements within a particular margin range. Account level options offered to consumer could include accepting all bets with higher price, accepting all bets with shorter price or accepting all bets regardless of price movements.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS	This requirement does not intend to capture currency fluctuations	10	
implementation guidance 2C e.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 2D	Customer who choose to use third party user interfaces must be informed that applications may not display full information about their gambles.	10	Not Applicable
	Remarks/Findings: The game does not support third party user interfaces.		
RTS implementation guidance 2D	Information should be included in terms and conditions, rules or other general information about the gambling product that is made available to and/or sent out to customers.	10	
	Remarks/Findings: This is an explanatory text only.		

	-		
RTS aim 3	To enable customers to make informed decisions about whether to gamble based on their chances of winning, the way the game, lottery or event works, the prizes or payouts on offer and the current state of multi-state games or events.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 3A	An explanation of the applicable rules must be easily available to the customer before they commit to gamble.	10	PASS
	Remarks/Findings: The required information is visible without staking money.		
RTS requirement 3A	The content including artwork and text must be accurate, and sufficient to explain all of the applicable rules and how to participate.	10	PASS
(continued)	Remarks/Findings: Instructions are clear and are deemed not to be misleading.		
RTS requirement 3A	All reasonable steps must be taken to ensure that the content is understandable.	10	PASS
(continued)	Remarks/Findings: The information given is correct and is not misleading.	-	
RTS implementation guidance 3A	Explanatory content includes information in artwork and text displayed within the virtual event, in 'help' or 'how to play' pages, or other supporting material.	10	
a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3A	Links to the information should be prominently placed, for example on home pages for gaming sections, game selection pages or menus, or within individual games, so that customers can easily locate them.	10	
b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	As a minimum, restricted display devices should provide explanatory content via a menu item or other link.	10	
guidance 3A c.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	The following items provide guidelines on the type of explanatory content that may be relevant and should be considered for inclusion:	10	
guidance 3A d.	Remarks/Findings: This is an explanatory text only.		
RTS	the name of the game, lottery or virtual event	10	
implementation guidance 3A d. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	the applicable rules, including clear descriptions of what constitutes a winning outcome	10	
guidance 3A d.ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	restrictions on play or betting, such as any play duration limits, maximum wins, etc	10	
guidance 3A d.iii.	Remarks/Findings: This is an explanatory text only.		

RTS	the number of decks or frequency of shuffles in virtual card games	10	
implementation guidance 3A d. iv.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3A	whether there are contributions to jackpots (progressives) and the way in which the jackpot operates, for example, whether the jackpot is won by achieving a particular outcome	10	
d. v.	Remarks/Findings: This is an explanatory text only.		
RTS	instructions on how to interact with the game	10	
implementation guidance 3A d. vi.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3A d.vii.	rules pertaining to metamorphosis of games, for example, the number and type of tokens that need to be collected in order to qualify for a feature or bonus round and the rules and behaviour of the bonus round	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	the rules for entering a single lottery draw or a series of lottery draws and the frequency of the draws.	10	
guidance 3A d.viii.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 3B	Where relevant, as the game or event progresses, information that may reasonably be expected to enable the customer to understand the current state must be displayed.	10	PASS
	Remarks/Findings: The required information is displayed on the artwork.		
RTS implementation	The following items provide guidelines on the type of information that may be relevant.	10	
guidance 3B	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Where a game builds up a collection of tokens (symbols etc), the current number collected.	10	
guidance 3B a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	An indication of which rules are currently relevant, such as displaying 'bonus round' or other feature labels.	10	
guidance 3B b.	Remarks/Findings: This is an explanatory text only.		
RTS	This requirement does not apply to lotteries.	10	
implementation guidance 3B c.	Remarks/Findings: This is an explanatory text only.		

3C       that may reasonably be expected to enable the customer to make an informed decision about his or her chances of winning must be easily available before the customer commits to gamble.       Information must include:         In a description of the way the game works and the way in which winners are determined and prizes allocated       In a description of the way the game works and the way in which winners are determined and prizes allocated or winning events occurring.       In the probability (likelihood) of winning events occurring.         RTS       memarks/Findings: The required information is visible without staking money.       In the probability (likelihood) of winning events occurring.       In the probability (likelihood) of winning events occurring.         RTS       more with e likelihood of winning. implementation probability of each event occurring as closely as possible.		Remarks/Findings: This is an explanatory text only.		
Developed of the second s	RTS implementation		10	
	a. vi.	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 3C	Information may be included in artwork and text displayed within the virtual game or event, in 'help' or 'how to play' pages, or other supporting material.	10	
b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3C	Information should be easily accessible, for example by placing links on home pages for gaming or virtual event sections, game selection pages or menus, or within individual games.	10	
С.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 3D	For each virtual event, game (including bingo), or lottery, content describing the potential prizes and payouts or the means by which these are calculated or determined must be easily available before the customer commits to gamble.	10	PASS
	Remarks/Findings: The required information is also accessible while not in game play.		
RTS implementation guidance 3D	Information should be made available about the amounts that customers may potentially win, for example in the form of pay-tables, or by showing the odds paid for particular outcomes.	10	
a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3D	For peer-to-peer games where the prize is determined based on the actions of the participants, a description of the way the game works and the rake or commission taken will be sufficient.	10	
b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3D c.	For lotteries and other types of events where the potential amount or prize paid out may not be known before the customer commits to gamble, describing the way in which the prize amount is determined will be sufficient.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3D	Information may be included in artwork and text displayed within the virtual event, in 'help' or 'how to play' pages, or other supporting material.	10	
d.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3D	Information should be easily accessible, for example by placing links on home pages for gaming sections, game selection pages or menus, or within individual games.	10	
е.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 3D	Displays of jackpot amounts that change over time ('progressives') should be updated as frequently as practicable, particularly after the amount has been reset following a win.	10	
f.	Remarks/Findings: This is an explanatory text only.		
RTS aim 4	To reduce the risk that customers are unfairly disadvantaged by technical factors that may affect speed of response, and to ensure customers are made aware of the risk	16	
	Remarks/Findings: This is an explanatory text only.		

RTS requirement 4A	Where speed of interaction has a significant effect on the customer's chance of winning, operators must assess the level of risk and demonstrate to the Commission that they are taking reasonable steps to reduce the risk to customers.	16	Not Applicable
	Remarks/Findings: The game does not support an interaction that has a (significant) effect on the customer's chance of winning.	-	
RTS	Examples of possible approaches include:	16	
implementation guidance 4A	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 4A a.	estimating the degree of network latency (delay) a customer is experiencing and displaying regularly updated information to the customer about any disadvantage that they may be operating under (e.g. high, medium, low)	16	
	Remarks/Findings: This is an explanatory text only.	-	
RTS implementation	applying a handicapping system based on estimated performance and/or system latency	16	
guidance 4A b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 4A	treating winning responses that arrive within a period of time as simultaneous and implementing a policy on how simultaneous wins are to be dealt with.	16	
С.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 4B	For time-critical events, the customer should be informed that they might be at a disadvantage because of technical issues such as slower network speeds, or slower end user device performance.	10	Not Applicable
	Remarks/Findings: The game does not support time-critical events.		
RTS implementation	Information should be included in game descriptions, rules, 'help' or 'how to play' pages.	10	
guidance 4B a.	Remarks/Findings: This is an explanatory text only.		
RTS aim 5	To ensure that the gambling system implements the operator's rules, game rules and betting rules as they are described to the customer.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 5A	All reasonable steps should be taken to ensure that gambles are accepted, processed and settled in accordance with the operator's published terms and rules, and the rules of the specific game, event, or bet.	10	PASS
	Remarks/Findings: The game operates and interacts according to the published rules.		
RTS requirement 5A (continued)	Where unexpected system flaws, faults, or errors that affect the customer occur, steps are to be taken as soon as practicable to remedy the problem and ensure that the customer is treated fairly according to the circumstances.	10	Not Applicable
		1	
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		

RTS implementation guidance 5A a.	Under normal operation, in the absence of technical faults, the system should act in accordance with the rules.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 5A b.	Reasonable steps include testing of systems and new products against the published rules and monitoring the ongoing performance of those products in the live environment. Refer to our testing strategy for more detailed requirements in this area.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 5A c.	Customers should be notified when errors that affect them, for example, incorrectly settled bets, have occurred as soon as practicable after the event occurs. Steps should be taken to rectify the error, for example, by manually adjusting the customer's account.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS aim 6	To minimise the risk that customers are misled about the likelihood of winning due to the behaviour of play-for-free games.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 6A	Play-for-free games must implement the same game rules as the corresponding play-for-money games offered on the same facilities (ie the same website). Operators must take all reasonable steps to ensure that play-for-free games accurately represent the likelihood of winning and prize distribution in the play-for-money game. For the purpose of this requirement playing a game includes participating in a lottery and/or betting on a virtual event.	16	Not Applicable
	Remarks/Findings: Play-for-fun is out of scope of this test report. Testing is restricted to the play-for-money game.		
RTS requirement 6A (continued)	Operators must take all reasonable steps to ensure that play-for-fun games accurately represent the likelihood of winning and prize distribution in the play-for-money game.	16	Not Applicable
	Remarks/Findings: Play-for-fun is out of scope of this test report. Testing is restricted to the play-for-money game.		
RTS requirement	For the purpose of this requirement playing a game includes participating in a lottery and/or betting on a virtual event.	16	Not Applicable
(continued)	Remarks/Findings: This is not a lottery and/or betting on a virtual event game.		
RTS implementation guidance 6A a.	The play-for-free game should use the same RNG as the corresponding play-for-money games, another RNG that fulfils the requirements set out in RTS requirement 7A, or a publicly available RNG, (such as those available as standard within operating systems) that may reasonably be expected to produce no systematic bias.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 6A	Where 6a is not reasonably possible, it should be demonstrated that the method of producing outcomes does not introduce a systematic bias, for example:	16	
b.	Remarks/Findings: This is an explanatory text only.		

RTS implementation	if tables of random numbers are used, they should be sufficiently long to support a large number of games without repeating	16	
guidance 6A b. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 6A	the method should represent game probabilities accurately, ie it should not produce a higher than expected proportion of winning outcomes.	16	
b. ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 6A c.	The prize distribution should accurately represent the play-for-money game. For example, where play-for-free games use virtual cash, the virtual cash payouts should be the same as the corresponding play-for- money game, and where tokens are used, the allocation of tokens as prizes should be proportionate to the stakes and prizes in the play-for- money game.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 6A d.	Where videos are used to advertise a game's features it should be made clear to consumers where footage has been edited or sped-up for promotional purposes. Similarly, where a non-consumer (eg supplier's) website is demonstrating a game with higher than normal returns (ie on a website that is different to the real money gambling facility websites) it should be made clear that it is a demonstration game specifically designed to demonstrate the bonus features.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS aim 7	To ensure that games and other virtual events operate fairly.	07	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 7A	Random number generation and game results must be 'acceptably random'. Acceptably random here means that it is possible to demonstrate to a high degree of confidence that the output of the RNG, game, lottery and virtual event outcomes are random, through, for example, statistical analysis using generally accepted tests and methods of analysis. Adaptive behaviour (i.e. a compensated game) is not permitted.	07	PASS
	Remarks/Findings: This is a game only test report. The correct processing by the game of RNG driven elements was included in the examination. However, since the RNG being used in the platform has already been tested and assessed separately, testing of the RNG itself is not included. See section 'References' for the RNG test report details.		
RTS requirement 7A (continued)	Where lotteries use the outcome of other events external to the lottery, to determine the result of the lottery the outcome must be unpredictable and externally verifiable.	07	Not Applicable
	Remarks/Findings: This is not a lottery game.		
RTS	RNG's should be capable of demonstrating the following qualities:	07	
implementation guidance 7A a.	Remarks/Findings: This is an explanatory text only.		
a.			

RTS implementation guidance 7A	the output from the RNG is uniformly distributed over the entire output range and game, lottery, or virtual event outcomes are distributed in accordance with the expected/theoretical probabilities	07	
a. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7A a. ii.	the output of the RNG, game, lottery, and virtual event outcomes should be unpredictable, for example, for a software RNG it should be computationally infeasible to predict what the next number will be without complete knowledge of the algorithm and seed value	07	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7A	random number generation does not reproduce the same output stream (cycle), and that two instances of a RNG do not produce the same stream as each other (synchronise)	07	
a. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	any forms of seeding and re-seeding used do not introduce predictability	07	
guidance 7A a. iv.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	any scaling applied to the output of the random number generator maintains the qualities above.	07	
guidance 7A a. v.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	For lotteries using external events - where it is not practical to demonstrate 7a the events outcomes should be:	07	
guidance 7A b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	unpredictable, that is, events should be selected only where they may reasonably be assumed to be random events	07	
guidance 7A b. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	unable to be influenced by the lottery operator (or external lottery manager)	07	
guidance 7A b. ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	publicly available and externally verifiable, for example, events that are published in local or national press would be acceptable.	07	
guidance 7A b. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7A c.	For games or virtual events that use the laws of physics to generate the outcome of the game (mechanical RNGs), the mechanical RNG used should be capable of meeting the requirements in a. where applicable and in addition:	07	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7A	the mechanical pieces should be constructed of materials to prevent decomposition of any component over time (e.g. a ball shall not disintegrate)	07	
c. i.	Remarks/Findings: This is an explanatory text only.		

RTS implementation	the properties of physical items used to choose the selection should not be altered	07	
guidance 7A c. ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	players should not have the ability to interact with, come into physical contact with, or manipulate the mechanics of the game.	07	
guidance 7A c. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7A d.	Restricting adaptive behaviour prohibits automatic or manual interventions that change the probabilities of game outcomes occurring during play. Restricting adaptive behaviour is not intended to prevent games from offering bonus or special features that implement a different set of rules, if they are based on the occurrence of random events.	07	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 7B	As far as is reasonably possible, games and events must be implemented fairly and in accordance with the rules and prevailing payouts, where applicable, as they are described to the customer.	07	PASS
	Remarks/Findings: The game operates and interacts according to the published rules.		
RTS implementation	Games should implement the rules as described in the rules available to the customer before play commenced.	07	
guidance 7B a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	The mapping of the random inputs to game outcomes should be in accordance with prevailing probabilities, pay tables, etc.	07	
guidance 7B b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7B c.	When random numbers, scaled or otherwise, are received, e.g. following a game requesting a sequence of random numbers, they are to be used in the order in which they are received. For example, they may not be discarded due to adaptive behaviour.	07	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7B d.	Numbers or sequences of numbers are not to be discarded, unless they fall outside the expected range of numbers required by the virtual event – such an occurrence should result in an error being logged and investigated.	07	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 7C	Game designs or features that may reasonably be expected to mislead the customer about the likelihood of particular results occurring are not permitted, including substituting losing events with near-miss losing events and simulations of real devices that do not simulate the real probabilities of the device.	10	PASS
	Remarks/Findings: The game design and/or game features are not misleading.		

	-		
RTS implementation guidance 7C a.	Where a virtual event simulates a physical device, the theoretical game probabilities should match the probabilities of the real device (for example, the probability of a coin landing heads must be 0.5 every time the coin is tossed).	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Where multiple physical devices are simulated the probabilities of each outcome should be independent of the other simulated devices.	10	
guidance 7C b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7C	Games may not falsely display near-miss results, that is, the event may not substitute one losing outcome with a different losing outcome.	10	
С.	Remarks/Findings: This is an explanatory text only.	-	
RTS implementation guidance 7C	Where the event requires a pre-determined layout (for example, hidden prizes on a map), the locations of the winning spots should not change during play, except as provided for in the rules of the game.	10	
d.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7C e.	Where games involve an element of skill, every outcome described in the virtual event rules or artwork should be possible, that is, the customer should have some chance of achieving an advertised outcome regardless of skill.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7C	Where a customer contributes to a jackpot pool, that customer should be eligible to win the jackpot whilst they are playing that game, in accordance with the game and jackpot rules.	10	
f.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 7D	The rules, payouts and outcome probabilities of a virtual event or game may not be changed while it is available for gambling, except as provided for in the rules of the game, lottery or virtual event. Such changes must be brought to customer's attention.	07	PASS
	Remarks/Findings: The required information is presented correctly.		
RTS implementation guidance 7D a.	Changes to game or event rules, paytables or other parameters that change the way in which a game, lottery, or event works, the winnings paid, or likelihood of winning (except as described in 7Dc), should be conducted with the game or event taken offline or suspended.	07	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7D b.	Altered games, lotteries, and events should display a notice that informs customers that the game or event has been changed, for example, 'rules changed', 'new odds', or 'different payouts'. The notice should be displayed on game selection screens and on the events themselves if it is possible for the customer to go straight to the event without using a selection screen.	07	
	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 7D	This requirement is not intended to prevent games and virtual events where specified changes occur legitimately, in accordance with the game or event rules, for example:	07	
С.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	virtual events, such as virtual racing products where the odds differ from event to event depending on the virtual runners	07	
guidance 7D c. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	virtual games, such as bingo where the odds of winning are dependent on the number of entrants	07	
guidance 7D c. ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	games with progressive jackpots, where the amount that can be won changes over time	07	
guidance 7D c. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	games with bonus rounds where different rules apply, so long as these rounds are properly described to the customer	07	
guidance 7D c. iv.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 7D c. v.	unspecified changes to rules, paytables or other parameters that change the way in which a game, lottery or event works are not permitted, for example, rules that state 'game rules may be changed at any time' would not be acceptable.	07	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 7E	Except in the case of subscription lotteries, the system clearly and accurately display the result of the game or event and the customer's gamble.	10	PASS
	Remarks/Findings: The required information is clearly and accurately presented to the customer.		
RTS requirement 7E (continued)	The result must be displayed for a length of time that may reasonably be expected to be sufficient for the customer to understand the result of the game or event in the context of their gamble.	10	PASS
	Remarks/Findings: The game outcome is displayed until a new play is started by the player.		
RTS implementation guidance 7E	The game artwork and text should be sufficient to provide the customer with all of the information required to determine whether they have lost or won, and the value of any winnings.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS aim 8	To ensure that the customer is still in control of the gambling where auto-play functionality is provided and to minimise the risk that the functionality disadvantages a customer or that auto-play or other strategy advice is misleading.	03	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 8A	The gambling system must provide easily accessible facilities that:	03	PASS
	Remarks/Findings: The auto-play function is implemented consistently with the requirements.		

RTS requirement 8A	make available the following three controls, each of which stops auto- play functionality when it is triggered-	03	PASS
а.	Remarks/Findings: The auto-play function is implemented consistently with the requirements.		
RTS requirement 8A a. i.	'loss limit', ie where the player selects an option to not lose more than X from their starting balance, where X is an amount that can be selected by the player. A 'loss' in this context equates to accumulated auto-play bets minus accumulated auto-play wins.	03	PASS
	Remarks/Findings: The auto-play function is implemented consistently with the requirements.		
RTS requirement 8A	'single win limit' ie single win greater than Y where Y is an amount that can be selected by the player and	03	PASS
a. ii.	Remarks/Findings: The auto-play function is implemented consistently with the requirements.		
RTS requirement	'jackpot win' (where applicable).	03	PASS
8A a. iii.	Remarks/Findings: The auto-play function is implemented consistently with the requirements.		
RTS requirement 8A b.	require auto-play to be implemented in such a way that each time a customer chooses to use auto-play they must select the stake, the number of auto-play gambles and at least the first of the above three controls.	03	PASS
	Remarks/Findings: The auto-play function is implemented consistently with the requirements.		
RTS requirement 8A continued	The number of auto-play gambles must not exceed 100 in one batch. During auto-play the customer must be able to stop the auto-play regardless of how many auto-play gambles they initially chose or how many remain.	03	PASS
	Remarks/Findings: The number of auto-play gambles does not exceed the maximum permitted number.		
RTS implementation guidance 8A a.	Auto-play should not override any of the display requirements (for example, the result of each gamble must be displayed for a reasonable length of time before the next gamble commences, as set out in RTS 7E).	03	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 8B	In relation to skill and chance games, strategy advice and auto-play functionality must be fair, not misleading and must not represent a poor choice.	07	PASS
	Remarks/Findings: Auto-play functionality is implemented consistently with the requirements. The game does not support strategy advice.		
RTS implementation guidance 8B	In implementing this control, the following should be considered, where appropriate:	07	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	if there is a standard strategy, for example, for well-known games like blackjack, the standard strategy should be used	07	
guidance 8B i.	Remarks/Findings: This is an explanatory text only.		

RTS implementation	strategies or auto-play should (theoretically) produce at least the average Return to Player (RTP) for the game over time.	07	
guidance 8B ii.	Remarks/Findings: This is an explanatory text only.		
RTS aim 9	To ensure that progressive jackpot systems operate fairly.	15	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 9A	An explanation of the jackpot rules must be clearly available to the customer before they commit to gamble.	15	PASS
	Remarks/Findings: The required information is clearly available to the customer.		
RTS implementation guidance 9A a.	The rules for a jackpot shall describe how it is funded, what the start- up seed and any ceiling values are. The jackpot system's return to player percentage should be displayed as per RTS 3C, this could be one combined game and progressive jackpot RTP figure or broken down into the base game and jackpot component. If a player is not eligible for a game's progressive jackpot prize this should be made clear, along with their respective theoretical RTP.	15	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 9A b.	The rules for a jackpot shall describe how the prizes are determined and awarded, including what happens when two or more players simultaneously trigger the same jackpot, or appear to simultaneously trigger the jackpot, for example due to network latency issues.	15	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 9A	All eligible players should be able to see the current jackpot values and these should be updated as frequently as is practicable, particularly after the amount has been reset following a win.	15	
С.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 9A	Where a jackpot is capped at a ceiling value, an explanation of how subsequent player contributions are handled should be provided (eg the operation of any redirected overflow or reserve pools).	15	
d.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 9B	Jackpot systems must be configured and operated with adequate fairness and security.	15	PASS
	Remarks/Findings: The jackpot system is implemented consistently with the requirements.		
RTS implementation guidance 9B a.	The gambling system shall maintain strict access and logging controls over the configuration and changes made to live jackpots.	15	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 9B b.	Where a customer contributes to a jackpot pool, that customer should be eligible to win the jackpot whilst they are playing that game. The chances of winning a jackpot should increase in correlation with the amount contributed.	15	
	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 9B c.	Where a jackpot containing player contributions is decommissioned those contributions need to be returned fairly according to the circumstances, with priority given to the players who made the contributions. Some example methods to achieve this include: i. waiting until the jackpot is next awarded before decommissioning it. ii. adding any remaining contributions onto another jackpot system, preferably one with a similar player base. iii. returning remaining contributions as a one off event, with adequate customer disclosure to explain the origin of money.	15	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 9B d.	The gambling system shall ensure that a winning customer is notified of a jackpot win immediately after it is triggered and that other participating customers are adequately notified of the jackpots reset value.	15	
	Remarks/Findings: This is an explanatory text only.		
RTS aim 10	To ensure that customers are treated fairly in the event of interrupted play or betting and that they are aware of how they will be treated if interruptions occur.	14	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 10A	Operators must take all reasonable steps to ensure that their policies for instigating or dealing with service interruptions are fair and do not systematically disadvantage customers.	14	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS	For gaming the following policies should be applied:	14	
implementation guidance 10A a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 10A a. i.	where an interruption occurs after the operator receives notification of the customer's gamble and where the customer can have no further influence on the outcome of the event or gamble the results of the gamble should stand	14	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 10A	where an interruption to a single-participant single stage event occurs before an outcome has been generated the customer should have any deducted stake returned to their balance	14	
а. іі.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 10A	for stateful games (games where there are multiple stages or decision points), all reasonable steps should be taken to restore the game to its last known state to enable the customer to complete the game	14	
a. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	games with multiple participants (equal chance or otherwise) should be dealt with fairly on a case-by-case basis	14	
guidance 10A a. iv.	Remarks/Findings: This is an explanatory text only.		

RTS implementation	progressive jackpot values should be restored to their pre-failure state.	14	
guidance 10A a. v.	Remarks/Findings: This is an explanatory text only.		
RTS	For peer-to-peer betting the following policies should be applied:	14	
implementation guidance 10A b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 10A	where a service interruption is caused by failures in the gambling system, operators should suspend betting on all betting markets that have been affected by a significant event before service is restored	14	
b. i.	Remarks/Findings: This is an explanatory text only.		
RTS	other failures should be dealt with fairly on a case-by-case basis.	14	
implementation guidance 10A b. ii.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 10B	Systems must be capable of recovering from failures that cause interruptions to gambling, including where appropriate, the capability to void gambles (with or without manual intervention), the capability to suspend betting markets, and taking all reasonable steps to retain sufficient information to be able to restore events to their pre-failure state.	14	PASS
	Remarks/Findings: The game will be continued or the results will be displayed after a renewed login.		
RTS	For gaming the system should:	14	
implementation guidance 10B a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 10B	be capable of voiding gambles and restoring the amount gambled to the customer automatically, or in conjunction with manual operational controls; and	14	
a. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 10B a. ii.	<ul> <li>implement all reasonable measures to maintain sufficient information to be capable of automatically restoring an event to its pre-failure state so that it may be completed by the customer.</li> <li>The following information should be restored, as appropriate:</li> <li>the state of a deck of cards, and any hands that have been dealt</li> <li>number of tokens collected</li> <li>any other predetermined information, such as maps or prize layouts</li> <li>the state of any gambles, e.g. who has staked what on what outcome</li> <li>bets placed or offered.</li> </ul>	14	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation	For peer-to-peer betting, it should be possible to suspend betting markets manually or automatically.	14	
guidance 10B	Remarks/Findings: This is an explanatory text only.		
b.			

		4.4	Not Applicable
RTS requirement	Operators must make available information about their policies regarding service interruptions in various different circumstances.	14	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS implementation guidance 10C	Operators should make information available to customers about how they will be treated in various common scenarios. However, this does not mean that operators have to detail all possible scenarios or responses to service interruptions.	14	
	Remarks/Findings: This is an explanatory text only.		
RTS aim 11	To reduce the risk that cheating or collusion by players unfairly disadvantages another player and to inform customers about the risks posed.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 11A	Measures intended to deter, prevent, and detect collusion and cheating must be implemented. Gambling systems must retain a record of relevant activities to facilitate investigation and be capable of suspending or disabling player accounts or player sessions. Operators must monitor the effectiveness of their policies and procedures.	16	Not Applicable
	Remarks/Findings: This is not a peer-to-peer game.		
RTS	Relevant activities to be recorded will vary by game but may include:	16	
implementation guidance 11A a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	which players played at which tables	16	
guidance 11A a. i.	Remarks/Findings: This is an explanatory text only.		
RTS	the amounts won from and lost to accounts	16	
implementation guidance 11A a. ii.	Remarks/Findings: This is an explanatory text only.	-	
RTS	game activities to an individual bet/action level.	16	
implementation guidance 11A a. iii.	Remarks/Findings: This is an explanatory text only.	-	
RTS	Where appropriate, prevention measures may include:	16	
implementation guidance 11A b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	taking steps to prevent a player from occupying more than one seat at any individual table.	16	
guidance 11A b. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Detection measures may include, detecting and investigating the following, where appropriate:	16	
guidance 11A c.	Remarks/Findings: This is an explanatory text only.		

RTS implementation	players who frequently share the same tables	16	
guidance 11A c i.	Remarks/Findings: This is an explanatory text only.		
RTS	players from same address who share the same table	16	
implementation guidance 11A c. ii.	Remarks/Findings: This is an explanatory text only.		
RTS	suspicious patterns of play (such as chip dumping).	16	
implementation guidance 11A c. iii.	Remarks/Findings: This is an explanatory text only.		
RTS	unusual gameplay statistics.	16	
implementation guidance 11A c. iv.	Remarks/Findings: This is an explanatory text only.		
RTS	Customer complaints about cheating should be investigated.	16	
implementation guidance 11A d.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Records should be kept of investigations which result in an account being closed including:	16	
guidance 11A e.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 11A	player details (name, location, which licence the activity was in reliance on), scale of the offences (financial and number of players), time and date etc	16	
e.i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	the reason for investigation (including whether it was initiated by customer contact) and the outcome	16	
guidance 11A e.ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 11A	any relevant evidence such as reports, screenshots, chat history etc. This information should be considered when updating the risks identified in relevant policies and procedures.	16	
e.iii.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 11B	Information must be made available about the operator's policies and procedures with regard to cheating, recovered player funds and about how to complain if a customer suspects other participants are cheating.	16	Not Applicable
	Remarks/Findings: This is not a peer-to-peer game.		
RTS implementation	As a minimum deterrent, customers should be informed that accounts will be closed if the customer is found to have cheated.	16	
guidance 11B a.	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 11B	Information regarding funds that are recovered from accounts during integrity investigations is not expected to cover every scenario but should highlight the main aims of the policy.	16	
b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Relevant information should be included in terms and conditions or rules.	16	
guidance 11B c.	Remarks/Findings: This is an explanatory text only.		
RTS aim 12	To provide customers with facilities that may assist them in sticking to their personal budgets for gambling with the operator. Customers must be also be given the option to set financial limits at an account level.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 12A	The gambling system must provide easily accessible facilities that make it possible for customers to impose their own financial limits.	16	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS requirement 12A (continued)	Customers must be given the opportunity to set a limit as part of the registration process (or at the point at which the customer makes the first deposit or payment).	16	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		
RTS implementation guidance 12A a.	For telephone gambling (except lotteries), customers should be asked if they would like to set a deposit or spend limit when they register. Customers should be able to request a limit at any point after registration. The limit should be implemented as soon as practicable after the customer's request. The customer should be informed when the limit will come into force.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 12A b.	For other access media (including internet, interactive TV and mobile), customers should be offered the opportunity to select a deposit/spend limit from a list which may contain a 'no limit' option or to enter a limit of their choice as part of the registration or first deposit process. The 'no limit' option should not be the default option.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS	Limits could be in the form of:	16	
implementation guidance 12A c.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	deposit limits: where the amount a customer deposits into their account is limited over a particular duration	16	
guidance 12A c. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 12A c. ii.	spend limits: where the amount a customer spends on gambling (or specific gambling products) is restricted for a given period – this type of limit may be appropriate where the customer does not hold a deposit account with the operator	16	
	Remarks/Findings: This is an explanatory text only.		

**Trisigma B.V.** Rijnstraat 30 4191 CL Geldermalsen The Netherlands www.trisigma.nl

RTS implementation guidance 12A	loss limits: where the amount lost (i.e. winnings subtracted from the amount spent) is restricted (for instance when a customer makes a $\pounds 10$ bet and wins $\pounds 8$ , the loss is $\pounds 2$ ).	16	
c. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 12A d.	The period/duration of the limits on offer should include: i. 24 hours and ii. 7 days and iii. one month	16	
	Remarks/Findings: This is an explanatory text only.		
RTS	In addition:	16	
implementation guidance 12A e.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	limits may be implemented per customer, per account, or other means	16	
guidance 12A e. i.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 12A e. ii.	limits could also be implemented across all products or channels or for individual products or channels. Where limits are also set across separate products it should be clear to customers using the facility that a limit will need to be set for each individuals product. For example, where a limit has been set for a specific game a customer should not be misled into assuming that the limit automatically applies to other products.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS	financial limit facilities should be provided via a link on the home page	16	
implementation guidance 12A e. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	facilities should be available on deposit pages/screens or via a link on these pages/screens.	16	
guidance 12A e. iv.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 12A e. v.	where a customer sets simultaneous time frames, for example a daily deposit limit and a weekly limit, the lowest limit should always apply. Therefore if a daily deposit limit of £10 and a weekly limit of £100 are both set then the maximum the system should allow to be deposited is £10 per day and £70 per week.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 12B	All reasonable steps must be taken to ensure that customer-led limits are only increased at the customer's request, only after a cooling-off period of 24 hours has elapsed and only once the customer has taken positive action at the end of the cooling off period to confirm their request.	16	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		

RTS implementation guidance 12B a.	Where possible (for instance, unless systems/technical failures prevent it) limit reductions are to be implemented within 24 hours of the request being received. In addition, at the point at which the customer requests a decrease in their limit, they should be informed when the limit reduction will take effect.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS aim 13	To provide customers with facilities to assist them to keep track of the time they spend gambling.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 13A	Where the gambling system uses full screen client applications that obscure the clock on the customer's device the client application itself must display the time of day or the elapsed time since the application was started, wherever practicable.	10	PASS
	Remarks/Findings: The client application displays the time of day.		
RTS implementation	Time of day should either be taken from the customer's own device or 'server time' and should be displayed in hours and minutes.	10	
guidance 13A a.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	Operators will not be expected to detect whether or not customers have hidden their clocks.	10	
guidance 13A b.	Remarks/Findings: This is an explanatory text only.		
RTS	Elapsed time should be displayed in minutes and hours.	10	
implementation guidance 13A c.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	For restricted display devices, time of day or elapsed time should be displayed where the device supports it.	10	
guidance 13A d.	Remarks/Findings: This is an explanatory text only.		
RTS implementation	In addition, customers may be offered the ability to set a session or game-play duration reminder.	10	
guidance 13A e.	Remarks/Findings: This is an explanatory text only.		
RTS requirement 13B	The gambling system must provide easily accessible facilities that make it possible for customers to set a frequency at which they will receive and see on the screen a reality check within a gaming session. A 'reality check' means a display of the time elapsed since the session began. The customer must acknowledge the reality check for it to be removed from the screen.	16	Not Applicable
	Remarks/Findings: This is a game only test report. Platform functions have not been tested.		

implementation guidance 13B a.         ansity check via easily accessible means at all times. Customers should be able to select a frequency at which the reality check will time periods but these must have a reasonable and appropriate range from which to select and where a default time period is offered it must be set at the minimum           RTS implementation guidance 13B b.         The reality check should continue to appear at the selected time intervals until the customer's gaming session ends (see definition of solutions ii iii below). If a customer is participating in multiple gaming sessions at once (ap playing bingo as well as participating in soluts games in between draws) the gaming session began when the player commence with the first product. The reality check facility could be implemented via one of the following ways: i. Player account level implementation. There are two potential solutions for account level implementation. There are solution would enable customers to set a reality check reminder for their account, which would commence at the start of the first gaming session and roll over to subsequent sessions. An alternative solution would be for the reality check to commence before a customer accesses a gaming session (ag at account level in pleamation. The easen oldution would be to the reality check to accounter before a customer accesses a gaming session (ag at account lovel not take into account, which would commence at the start of the first gaming sessions. An alternative solution would be to the reality check to achi dividual gaming session, for example the player commences playing roulette and then later starts playing blacka(ach and has two reality checks anoning concurrently but covering different time periods. iii. Hybrid rolution. Some games are subject to a separate reality check and hive dealer products are subject to a separate reality check is an explanatory text only.         16				
RTS implementation guidance 13B b.       The reality check should continue to appear at the selected time intervals until the customer's gaming session ends (see definition of terms) or the customer exits their account (this will depend on solutions i ii ii below). If a customer is participating in multiple gaming sessions at once (eg playing bingo as well as participating in solut games in between draws) the gaming session began when the player commenced with the first product. The reality check facility could be implemented via one of the following ways: i. Player account level implementation. There are two potential solutions for account level implementation. The optimum approach would enable customers to set a reality check reminder for their acceuses a gaming session (eg at account log in stage). The second solution would meet the requirement although it would not take into account natural breaks in play, such as when customers are in the casino lobby.       Image: the second solution would meet the requirement although it would not take into account natural breaks in play, such as when customers are in the paiser commences playing routette and then later stars playing blackack and has two reality checks running concurrently but covering different time periods.       Image: the player commence as playing the second solution would there are subject to another for example all slot games are subject to a single reality check.       Image: the assist the min managing their gambling. Where possible a player's preferences should be applied to all future account logins or gaming sessions (where applicable). If this is not possible players must be provided to players so they are aware of how theplayer sore preferences should be applied to all futur	RTS implementation guidance 13B a.	reality check via easily accessible means at all times. Customers should be able to select a frequency at which the reality check will appear on the screen. Customers can be presented with a pre-set list time periods but these must have a reasonable and appropriate range from which to select and where a default time period is offered it must be set at the minimum	16	
implementation       intervals until the customer's gaming session ends (see definition of terms) or the customer exits their account (this will depend on solutions ii iii below). 	d.	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 13B e.	The reality check can be presented at the end of a game but a player cannot be permitted to commit further funds to a new game until they have acknowledged the reality check, unless it occurs mid-way through a multi-state game such as blackjack where a player would need to commit additional funds if they wanted to split or double down.	16	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 13B	The reality check must prevent a new game within an auto-play sequence from commencing until the player has acknowledged the reality check.	16	
f.	Remarks/Findings: This is an explanatory text only.		
RTS aim 14	To ensure that products are designed responsibly and to minimise the likelihood that they exploit or encourage problem gambling behaviour.	03	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 14A	Gambling products must not actively encourage customers to chase their losses, increase their stake or increase the amount they have decided to gamble, or continue to gamble after they have indicated that they wish to stop.	03	PASS
	Remarks/Findings: Customers are not actively encouraged to play.		
RTS implementation guidance 14A a.	By actively encourage, we mean the inclusion of specific features, functions or information that could reasonably be expected to encourage a greater likelihood of the behaviours described occurring. For example:	03	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 14A a. i.	the amount of funds taken into a product should not be topped up without the customer choosing to do so on each occasion, e.g. when a customer buys-in at a poker table they should have to choose to purchase more chips to play at the table - automatic re-buys should not be provided	03	
	Remarks/Findings: This is an explanatory text only.	-	
RTS implementation	written or graphical information should not encourage customers to try to win back their losses	03	
guidance 14A a. ii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 14A	customers who have chosen to exit a game should not be encouraged to continue playing by, for example, being offered a free game.	03	
a. iii.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 14A b.	This requirement is not intended to prevent operators from offering special features or well-known games such as blackjack that allow customers to increase their stake on the occurrence of specific events (e.g. split).	03	
	Remarks/Findings: This is an explanatory text only.		

RTS aim 15       To make the customer aware that they may not have the latest information available when betting on live events, and that they may not have the that they may not have the latest information available when betting on live events, and that they may not have the use that they may not have more up-to-date information.       10         RTS requirement 15A       Information must be made available that explains that 'live' TV or other broadcasts are delayed and that others may have more up-to-date information.       10       Not Applicable         RTS requirement 15A       Main in-play betting pages must include this information where practicable.       10       Not Applicable         RTS requirement 15A       Main in-play betting pages must include on main in-play pages or assent. 		Remarks/Findings: This is an explanatory text only.		

RTS requirement 16B	Operators must make it clear to players whether the use of third party software is permitted and if so which types. Operators that prohibit certain types of third party software must implement measures intended to deter, prevent, and detect their use.	10	Not Applicable
	Remarks/Findings: This is not a peer-to-peer game.		
RTS implementation guidance 16B	Clear, accessible information about the types of software that are permitted or prohibited should be included within terms and conditions and the players guide (LCCP Social responsibility code 4.2.3), as a minimum. This does not have to be an extensive list but could be a description of the key features of the software.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement 16C	Where operators use programs to participate in gambling on their behalf in peer-to-peer gambling, easily accessible information must be displayed, which clearly informs customers that the operator uses this kind of software.	10	Not Applicable
	Remarks/Findings: This is not a peer-to-peer game.		
RTS implementation guidance 16C a.	Peer-to-peer(s) gambling operators that use software to gamble on their behalf (for example, poker robots) should display a notice to customers on the home pages or screens and in the game description, 'help' or 'how to play/bet' pages or screens.	10	
	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 16C	As a minimum, restricted display devices should provide a link to further information on gambling pages/screens or in 'help', 'about' or 'how to bet/play' pages or screens.	10	
b.	Remarks/Findings: This is an explanatory text only.		
RTS aim 17	To ensure that live dealer operations are fair.	03	
	Remarks/Findings: This is an explanatory text only.		
RTS requirement	Live dealer operations must be fair and independently auditable.	03	Not Applicable
17A	Remarks/Findings: This is not a live dealer game.		
RTS implementation guidance 17A	Equipment and consumables should be of commercial casino quality. Designated staff should be responsible for monitoring the integrity of all operational equipment.	03	
а.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 17A	Croupiers need to undergo adequate training to provide the gambling in a fair way according to documented procedures and game rules. Evidence of training and refresher training should be maintained.	03	
b.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 17A c.	Gambling provision should be supervised by staff responsible to oversee dealer activities and integrity. Video surveillance to record all dealer activity should be in place, enough to cover the predefined gaming areas with sufficient detail to confirm whether dealing procedures and game rules were followed.	03	
	Remarks/Findings: This is an explanatory text only.		

RTS implementation guidance 17A	Secure areas, gambling equipment and consumables shall be protected by appropriate access controls to ensure that only authorised personnel are allowed access.	03	
d.	Remarks/Findings: This is an explanatory text only.		
RTS implementation guidance 17A	Game logs should be maintained and game events collated into statistics which can be analysed for trends relating to game performance, staff and/or locations in the gaming area.	03	
е.	Remarks/Findings: This is an explanatory text only.	-	

Test method	Description	Test #
Product - game type	Assessment of the type of gaming system.	01
Model registration	Assessment of input for the model registration of the gaming machine.	
Game process	Assessment of the game process of the gaming system.	
Construction	Assessment of the construction of the gaming machine.	
Stake	Assessment of the stakes/bets of the gaming system.	
Prize	Assessment of the pay table of the gaming system.	
Statistics	Assessment of the statistical behaviour (math), including RNG and RTP of the gaming system.	
Insertion and payout	Assessment of the insertion and payout mechanism.	08
Recording	Assessment of the recording mechanism.	09
Presentation	Assessment of the presentation to the player.	10
Game time	Assessment of the game time (minimum and/or average) of the gaming system.	11
Ram reset	Assessment of the effects of a ram reset.	12
Player information system	Assessment of the functionality of the player information system of the gaming system.	13
Power interruption	Assessment of the game integrity after a power interruption of the gaming system.	14
Linked Jackpot	Assessment of the functionality of a (linked) jackpot of the gaming system.	15
Software	Assessment of the source and/or software of the gaming system.	16
Multi player	Assessment of the requirements for a multi player of the gaming system.	17
EACS	Assessment of the Electronic Accounting and Control System (EACS).	18
Data communication	Assessment of the data communication protocol of the gaming system.	19
Product inspection	Inspection of the correct production of an approved type of gaming machine.	20
Inspection method	Assessment of the inspection method of the gaming system.	21

## **APPENDIX A: Game rules**

#### **Beachside Bonanza**

Choose your stake, buy your scratch card and then reveal the 9 panels. Match any 3 symbols to win.

#### **Progressive Jackpot Feature**

The jackpot is triggered by getting 3 Diamond symbols

To qualify for the full progressive jackpot amount, you must stake max bet. If you place a stake amount below the max bet you qualify for a percentage of the full progressive jackpot amount. For Example; If the Max stake on the game was £5 and you staked £1 you would win 20% of the Jackpot (as £1 is 20% of £5).

The current winnable value of the progressive jackpot based on your stake is displayed in the game. If you are lucky enough to be a confirmed winner of the progressive jackpot, you will be contacted to arrange the crediting of winnings to your account. The jackpot will be reduced by the amount you have won. The jackpot will be reset when the full progressive jackpot is won.

\*All amounts shown here are in the base currency used on the platform which is GBP. We use a currency display rate conversion which may vary depending on the actual exchange rate at the time. The display rate may also vary from the actual exchange rate.

#### Pay Table

Winnings are dependent on the symbols displayed once all symbols have been revealed. Please refer to the paytable in the game itself for more details.

#### Game Rules

- Minimum and Maximum stake are at the operator's discretion.
- Autoplay functionality may be available where the game will play out until triggered to stop via; a spin limit, wins of a set amount, losses of a set amount or jackpot win (where applicable).

#### Jackpot Rules

- The jackpot value on this game is initially funded/seeded with a set amount.
- For each cash stake made on the game a contribution is made to the jackpot fund. This contribution is funded by the operator so does not affect the game RTP.

**Trisigma B.V.** Rijnstraat 30 4191 CL Geldermalsen The Netherlands www.trisigma.nl

- The jackpot has a default jackpot stake contribution percentage. Individual
  operators may vary the jackpot contribution percentage for the game.
- Stake contributions result in increments to the jackpot value. Until the jackpot seed has been covered a portion of stake contributions (typically 50%) are used to cover the seed while the remaining portion is used to increment the jackpot value. Once the jackpot seed has been covered 100% of contributions result in an increment.
- The jackpot on this game may be linked with other games. Games that link to the same progressive jackpot can be seen in the Progressive Jackpot detail page.
- The jackpot will be reseeded as soon as a Jackpot win occurs that reduces the jackpot amount to less than the re-seed amount.
- The reseed amount is the minimum amount that the jackpot will be set to in the case of a win. In the case the full jackpot is won, the jackpot will be reset to the re-seed value plus any pending jackpot increments. In the case of a partial jackpot win the re-seed value is only applicable if the amount won reduces the actual jackpot amount to less than the re-seed value.
- If the jackpot has never been re-seeded this will be the initial startup amount of the jackpot. If the jackpot has been previously re-seeded (see above) this will show the value the jackpot was seeded with at the time.
- Due to communication delays two players may appear to win the jackpot simultaneously. In this case the first payout will be for the full jackpot value, while the second player will receive the reseed value plus any residual amount. Any other winners will receive the seed amount
- From time to time we may remove funds from the Jackpot in order to run promotions. Terms and Conditions relating to these promotions will be clearly displayed on our website throughout the promotional period.
- On rare occasions we may vary elements of the jackpot configuration such as how the jackpot is seeded or won. Any updates will be reflected in these rules immediately.
- For more details please see the Big Jackpots and Progressive Jackpot Details help pages.

### RTP

Average RTP is 90% (based on average gameplay). The game also has a progressive jackpot which is funded by operators. Default contribution is 2% of cash stakes. Individual operators may vary the jackpot contribution percentage. The 'JP Contribution' field in Progressive Jackpot Detail help page states the contribution we apply to the game.

#### Disconnections and Game Recovery

If your connection to a game is lost for whatever reason, e.g. internet connection problems, or manually quitting/closing the game, while a game is in progress the game will still complete and you will receive any winnings due. You can still see the results in Bet History after completion of the game.

### Malfunction

**Trisigma B.V.** Rijnstraat 30 4191 CL Geldermalsen The Netherlands www.trisigma.nl
