9 COMMENTS

BMM has conducted a level of testing/evaluation which has historically been adequate for a submission of this type. However, inherent in testing in a laboratory environment is the unavoidable limitations of it not being possible to verify the effects of all possible configurations and environments that occur in actual gaming venues.

Accordingly from the testing performed BMM confirms that the item under test (unless otherwise stated) conforms to all the relevant Gibraltar Gambling Regulations as stated below, subject to secure installation on the production system.
