Eyecon is a software provider.
Before the game is released to production, all operator-responsibility items listed under **I. Complete requirements met by the tests** must be satisfied by the operator.

IV. Level of Certification

Paddy's Bouncy Balls has passed all tests according to testing requirements (as required for software providers) of the two categories in UK Remote Gambling and Software Technical Standards - February 2021, subject to integration of the certified game into the live environment (or development/staging environment which is essentially the same as the live environment) and satisfactory verification of any operator-specific functions not covered by this certification as indicated in Section I. Complete requirements met by the tests.

Note - the two categories of testing requirements are:

"testing requirements that require external testing" – these must be assessed by a third party (approved test lab).

"testing requirements that do not require external testing" – these are capable of being tested and verified by the operator (or software provider).
