\*Eyecon is a software provider. It is the operator's responsibility to ensure that these requirements are satisfied.

## II. Observations

None.

## III. Conditions

This round of certification is for game only. RNG and Platform requirements are out of scope.  
Eyecon is a software provider.  
Before the game is released to production, all operator-responsibility items listed under **I. Complete requirements met by the tests** must be satisfied by the operator.

## IV. Level of Certification

Fluffy Arcade Coconut Shy LuckyTap have passed all tests according to testing requirements (as required for software providers) of the two categories in UK Remote Gambling and Software Technical Standards - February 2021, subject to integration of the certified game into the live environment (or development/staging environment which is essentially the same as the live environment) and satisfactory verification of any operator-specific functions not covered by this certification as indicated in Section I. Complete requirements met by the tests.

Note - the two categories of testing requirements are:

"testing requirements that require external testing" – these must be assessed by a third party (approved test lab).

"testing requirements that do not require external testing" – these are capable of being tested and verified by the operator (or software provider).

### II. Observations

No.	Description	Remarks	Notes
1.	<b>RTOS 2.4.3</b> <b>Game History</b>	Eyecon is a licensed game and software provider. iTech Labs has verified the presence of all game history elements and the accuracy aspect of the history (i.e. completed games are accurately recorded in the game history). Presentation (appearance) of game history to players is the licensee's responsibility.	Operator responsibility
2.	<b>RTOS 3.4.5</b> The availability of game rules and information should be checked regularly; if the information is not available the game should not be made available for gambling.	Eyecon is a licensed game and software provider. It is the licensee's obligation to make sure this requirement is satisfied.	Operator responsibility
3.	<b>RTOS 3.4.11</b> The general playing rules and the payout percentage for a particular game should be the same in free play mode as it is in the real money game.	Eyecon is a licensed game and software provider. 'play for fun' offer is the licensee's responsibility. It is the licensee's obligation to make sure this requirement is satisfied.	Operator responsibility
4.	<b>RTOS 3.7.3</b> Applicable game rules and/or information should not be changed during a session unless adequate advance notification is given to customer. (e.g. where customers have incomplete games, etc).  <b>RTOS 3.7.4</b> Applicable game rules and/or information should not be changed between a customer making a bet and the result of the bet being generated and calculated unless the customer was aware of the change before the bet was made. For jackpots, parameters should not be altered outside stated T&C's once customer(s) have contributed to the jackpot.  <b>RTOS 3.7.5</b> Changes to rules and pay tables should not be retrospective in their effect. Generally, and wherever possible, changes should be applied when the facility is inactive or deactivated and be readily apparent to any customer returning to a facility.	Eyecon is a licensed game and software provider. It is the licensee's obligation to make sure these requirements are satisfied.	Operator responsibility

**Verification report: ITL2501555**

5.	<p><b>RTOS 7.1.1</b> Licence holders should make information available to customers on their website(s) about their testing and quality assurance arrangements in place to assure fairness and randomness in their gaming products, including information about testing/certification by an ATF where applicable and where this can be accessed.</p> <p><b>RTOS 7.1.2</b> Licence holders should ensure appropriate systems and resources are deployed to prevent or detect attempts to cheat by customers or other parties. Such measures should be applied on a risk sensitive basis, with analytic programs (e.g. algorithms, exception reports, cluster analysis) deployed to identify long term or systemic cheating as well as short/medium term sporadic efforts.</p>	<p>Eyecon is a licensed game and software provider. It is the licensee's obligation to make sure these requirements are satisfied.</p>	Operator responsibility
